Guys are your legs smelly? Mine have weird odor, it's really odd but i'm okay with it. Once I licked them and the taste was salty :d

Anyone does the same?

Also are you a lot hairy on your legs?

No my legs don't smell, I've never licked them and yes they have hairs.

You need to use soap on your legs

One - September 22, 2019, 12:33 pm

Just wash them,It taste like salt cause you licking your own sweat lol

Krepto - September 22, 2019, 12:48 pm

I don't think my legs have ever smelt, even after sweating?

0x3043 - September 22, 2019, 1:11 pm

Odor is due to the dust mixed with sweat, you just need to take some good showers.

Sweat is subjected to produce 'salty' taste, BTW have you tried the same with other body parts ?
