Deal was for \$525 BTC

User sold me a dropshipping website 22 days ago, have been waiting on full delivery since then. He was supposed to make me a video showcasing the product along with pictures, which he claimed would take "2-3 days" on 9/1/2019. It's now 9/23 and I've received nothing besides login details to the website. User was also supposed to help me setup ads and provide an IG account for the site, neither of which have been delivered.

Overall just a shit show, his account got banned and I can't see what for, so I'll assume he was a multi and this money is just lost. Fuck it

I'll add screenshots tomorrow

When I just joined the forum, the first thing I saw was his threads and what I thought was: "This guy is going to trick people into something awful". Here we go, few days later, exactly what happened.

It was so obvious something was going on, just take a look at the screenshot below.

He posted three sales thread in just a few days and honestly these topics are just funny and ridiculous. I'm sorry that you lost money due to his recent actions and hopefully you find a way to return the money. If you still have access to that store and he has an account there, you can find his IP address. When you're inside the dashboard go to Settings, then Account and click on his name. You'll be able to see his IP address and country.

Jesus christ, \$525 for a dropshipping website.

You can make your own for free, this guy probably doesn't know shit.

I'm well aware lol

I bought it on impulse and just due to the fact I wanted a ready-to-go shop

Honestly now I could give a fuck about dropshipping and I don't even want the store, but this fucking loser pissed me off

Jesus man so sorry for the loss
\$500+ is a lots of money :/

Why didn't you go with @Duepi :(

Cuban - September 23, 2019, 9:37 am

Damn that fuggin sucks man. I was half tempted to buying something from him but he just couldn't answer any of my Qs properly or show any proof, and I've been burned enough times to not want to

risk it anymore. At least he won't get anyone else now (hopefully)

UnpredictableLegacy - September 23, 2019, 9:40 am

He scammed like 1000\$ from selling his method too. I guess his earnings were from scamming too

ahaha that's what you get for sales trashing

Regardless, \$500 isnt the problem here, i'd rather people not get scammed by the same person.
