Sounds like an awesome service. Since no vouch copies, I will have to just wait for a few customers to post to make sure things go smoothly. Will check back later!

I'll test this out. Start a contract with payment info and what information you need from me.

Can't I just do this by buying an .edu for \$3 on HF?

Awesome, will send you a contract shortly!

When an .edu address is deemed falsely obtained they ping Amazon and close the account, whereas this will be with your own email account so it will never close. So you'll never have log in issues where they're sending password resets to an address you can't access any more!
