Which one looks the most sympathies or bad ass to you?! ?

Yin Yang - September 23, 2019, 10:58 am

Let's not do this and say we did

AYMG - September 23, 2019, 10:59 am

By eyes, yes, but it's a lot easier and more correct with the whole face.

cryp - September 23, 2019, 11:00 am

Sympathetic, #4, "badass/ill intentions" #2, #1

TheRecklessZebra - September 23, 2019, 11:13 am

Yes you can tell right away especially if they are on drugs lol

Rsynced - September 23, 2019, 11:23 am

Yes, if someone gives you the evil eye they are an asshole.

One - September 23, 2019, 11:45 am

No7 eye looks like a jerk ass from my telepathic reading

BTC BTC BTC - September 23, 2019, 11:47 am

They all look sketch. No one looks like a badass at all.

Guess 5 looks the most sympathetic.

Have to agree with you. I bet OP just used pictures of serial killers for this experiment.

Hey, I agree with this guy.

Doctor. - September 23, 2019, 12:00 pm

6 looks most badass. Kinda like the eyes in my profile pic of Dan Bilzerian

CHUzi - September 24, 2019, 1:10 pm

Bumping this thread, rate rate rate.

Rigel - September 24, 2019, 2:37 pm

All of them look focused, I'm really bad at reading just eyes...

tripleseven - September 24, 2019, 8:24 pm

I believe the eyes tell alot and i do believe in facereading but for the entire personality i think its very very difficult to tell right away looking only at the eyes.

SKIDROOTKIT - September 24, 2019, 8:33 pm

Yes. Actually you can. Eyes have many characteristics which describe the way they look

IE:

- Canthal tilt
- Orbital Rim
- Eye Shape
- IPD
- Brow Ridge

Any of these could make a man seem like a "bitch" or a "good looking dude" or a "criminal"

#4 and #6 are ideal for aesthetics because of positive/neutral canthal tilts, no to little upper eye lid exposure, and good orbital rim growth.....

You think you could rate those eyes?

Vyrkfrir - September 25, 2019, 9:42 am

I believe you can determine if someone is death staring with their facial expression except eyes covered. Eyes tell a lot, eyeballs on their own on the other hand are just pretty balls with danglies on the back.

Bastille - September 25, 2019, 9:49 am

In my opinion, they all looks like psychopaths

TheChaosKiller - September 25, 2019, 12:14 pm

I'm always getting told I have crazy eyes, but then that I'm a very relaxed and calming person. My eyes don't match my personality, at least I don't think so.

Blogger - September 27, 2019, 2:55 pm

Everyone has serial killer eyes.

Stanley - October 12, 2019, 4:42 pm

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

Spaark - October 12, 2019, 5:22 pm

Hey just close the thread, Stanley don't need them bytes.

Nobody can gage personality from eyes. You cant even determine emotion.

Threat - October 12, 2019, 5:24 pm

No you can't and this thread is kind of pointless lol.

Natas - October 12, 2019, 5:25 pm

Tbh they all look like predators with just a eye shot lmao
