Thread: [Lonely reborn virgin loser thats me](#)

jesusg - September 23, 2019, 12:12 pm

Heyy!

I actually accidentally found this place, it's like a hidden jewel lol.

I don't rly hack, neither can I hack anything, I tried ddosing someone from teamspeak once ages ago and ended up ddosing myself.

I used to experiment with some node.js to make a discord bot thats the extend of that.

I'm 19.

My name is Anja.

I study nursing.

I work at a nursing home.

I love playing games and always have, and if anybody want to play the new modern warfare when it's able to be purchased let me know or league for that matter. ?

ps. im fookin lonely.

Welcome to hf, I hope you like it here and 'find what you are lookin for'. Make sure to read trough the [Help Docs](#) too ;)

What else do you play or is it just that? -I'll hit you up on discord and yeah, I use the same name there as here so it's not that hard to guess who I am :D

Code "I tried ddosing someone from teamspeak once ages ago and ended up ddosing myself. I used to experiment with some node.js to make a discord bot thats the extend of that." First off LOL @ you ddosing yourself. I'm not laughing at you, more so with you. Don't worry it happens to the best of us. ;D

Also the fact alone that you coded a discord bot in node.js means you've done more coding work than a good majority here. Many people like to flex what they "can" do, but when it comes to actually doing it well that's another story.

Also are you Irish lol? I noticed the "fookin" and couldn't tell if you just didn't want fuckin showing or if fookin is actually how you say it. ?
