Thread: [Warning Level](#)

tachos - September 24, 2019, 3:46 pm

Hi, I got a thread junked the other day (posted a selling in the monetizing by accident) and got a week of "limited access". Now about 2 weeks later I still got warning level on 50% is there anyway to resolve this ?

BTC - September 24, 2019, 3:46 pm

Expires: 3 Weeks, 1 Day, 23 Hours

Wait until the expiration date, that is the only way to resolve.

Sir - September 24, 2019, 3:48 pm

You're warning was given a month ago and is in effect for nearly another month.

Expires 10/17

Thanks so much guys.

Eagle 95 - September 25, 2019, 3:25 am

Warning level expires within a certain time frame, check your User CP to see the expiration date.

(Guys already told you the date but for future reference).
