Thread: [\[FREE\] Lime Crypter v0.5 | .NET + NATIVE | Simple Source Code](#)

NYANxCAT - September 25, 2019, 5:40 pm

Lime Crypter v0.5

A free FUD obfuscation tool

Easy to re-FUD and support Native and .NET

Bypass most AV (Avast ESET WD)

Feel free to modify it and re-share\sell

[SourceCode](#) | [Compiled](#) | [ScanResult](#)

When was the 0.4?

Kryme - September 25, 2019, 5:43 pm

Won't be FUD for long, no one uses non-distro scanners ...

NYANxCAT - September 25, 2019, 5:46 pm

(Sep 25, 2019 05:43 PM)Cooooool Wrote: [\[CITE\]](#) When was the 0.4?

It's not important but:

<https://hackforums.net/showthread.php?tid=5861729> 0.3

<https://hackforums.net/showthread.php?tid=5896705> v0.4

(Sep 25, 2019 05:43 PM)Kryme Wrote: [\[CITE\]](#) Won't be FUD for long, no one uses non-distro scanners ...

The version isn't new. I released it for a month or more ago. It's still FUD. but since I shared it here it won't be FUD for long. You have the source to learn + refud

?

Clonazepam - September 27, 2019, 4:50 am

just tested and its fud runtime bypasses avast and avg,better than most crypters on here..great work

Thanks for your feedback! Glad you like it.

Silkroad - September 27, 2019, 12:47 pm

Wow you're definitely my favorite member, thank you for all these amazing releases!

tiny cracker - September 28, 2019, 12:40 am

This Man is Impressive. Excellent work around.

One - September 28, 2019, 9:25 am

Nice one nyan, This will help alot of people

naxster - September 28, 2019, 1:49 pm

As always you are the best! I will try this later :)

NYANxCAT - September 28, 2019, 2:07 pm

^ I read all posts above.

Thank you guys for your support I appreciate it.

jusun kiltti sisko - September 30, 2019, 12:40 am

Does it affect what Icon you use?

blade001 - October 3, 2019, 8:03 pm

Can someone give instructions on how to compile the source code? Advice about what is best to modify in order to REFUD will also be highly appreciated. I am sorry if my questions seem trivial. Now I think this crypter is no longer FUD.

naxster - October 10, 2019, 7:44 am

I mean Nyan wrote in his GitHub how to use the source code and from there you can compile it by pressing the "build" button...

bro pls I need a private crypter send me ur contact ID

StrikerICA - October 23, 2019, 12:25 am

Good Crypter written in C#. Learnt many things.

Anonymouz - January 1, 2020, 8:11 am

Does this one still works for Windows Defender?

and first of all happy new year 2020

Hello and thank you for encrypting the file but I can't get to bypass trend can you help me by telling me how to bypass trend thank you Mp

darklink - January 3, 2020, 11:42 am

Is there a good place to learn so I can ReFUD this?

YuZeRsF - March 9, 2020, 5:56 pm

is this crypter still work or not ?

HEISENPUG - March 9, 2020, 6:00 pm

If you mean its not FUD its because its public.... if there is problems, you can fix it with the source

NYANxCAT - March 9, 2020, 10:11 pm

nice release op keep it up, pretty good job ngl.

Nn00zx - March 10, 2020, 1:27 am

i reFUD it but cant bypass runtime
image.prntscr.com/image/V6AywLKbQkqVvVPFXrOyzA.png
can you give me hint how to do it ?
please
and ty for the great Crypter

Depends on several things. such as

1- Runpe class - You need to use another class, you can find some public runpe on my GitHub and YT channel.

2- Startup method - You need to edit/modify the installation method/class.

3- RAT - Some old RAT have bad runtime. Try to use something updated.

Cappypulpy - March 12, 2020, 4:18 pm

Nyan you're a god.

I'm sorry can you direct me to a tut, on how to refud, or just get a general idea!!
Thank you ?

Stanley - May 8, 2020, 10:25 pm

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

3- RAT - Some old RAT have bad runtime. Try to use something updated.

Is the Main reason behind runtime detection.

Jbobon - July 25, 2020, 4:45 am

not fud not working to shortttttttttttt

hustlemo - July 25, 2020, 8:31 am

i sent you a convo, do i still gt d discount?

radaroptical - July 28, 2020, 9:04 am

How can I reFUD it with the source code?

PandaBear - August 10, 2020, 9:42 am

Amazing, 12/26 on first try without modifying anything, I'm guessing I have to change the Stub part, anything in particular I need to modify? Would adding random code and changing all variables/methods names be enough to improve the detection rate?

Well I'll try a few things and thanks to you!

vam3902 - September 24, 2020, 11:11 pm

how to download lime crypter where is the link bro can any one help me

Hostlyy - October 18, 2020, 10:49 am

Hey I'm a big beginner here and could someone tell me what runtime is and how to reFUD aswell as alot of other keywords since I dont know what they mean. I'm still learning C# rn

xZalurex - October 18, 2020, 5:02 pm

Hey thanks for releasing this, i have been making RSbots for a long time and now im trying to start coding cypters for private use, i appericate this.
