Thread: [Overwatch Rating Push](#)

Getting a group together to push from gold to high plat. Need an experienced group of players. I am 2800 CHR, but my girlfriend dropped me into low gold playing on my account. If you are interested, please send me a private message with your GamerTag, main hero, experience, and whether or not you have a mic or can flex heroes.

Mic is very much encouraged but if you have the skill to play without it via awareness then I will make exceptions unless you are Zenyatta typically. There will also be my buddy in Grandmasters playing with us on his smurf and I am high diamond on Xbox to give you an idea of my skill level.

PM me for my Discord.

Not in many months. I play Rivals more often now when I have the spare time. OW2 ran off a cliff. I heard it was making somewhat of a comeback?

Season 19 just launched yesterday. It supposed to have new features and bring back some cool stuff. Since you're into this I suggest you check it out :)

Heck, yeah, will hop on for the first time in forever tomorrow for an hour or so. Big issue I had with OW was the time consumption in my day tho compared to Rivals. What rank/main are you btw?

I'm not even playing xD I used to watch gameplay videos and I always liked it and kept an eye on it.

Let me know if it becomes fun again!
