Thread: [Vendor Group Suggestion](#)

Cyber Rick - September 26, 2019, 7:54 pm

Didn't see this suggested before but I think it would be a great idea for the "Vendor" upgrade to include all of the uber perks on top of its own rather than just being its own group.

Why so you don't have to buy ub3r?

You don't have to buy uber right now to get Vendor you just have to be accepted into Vendor (which I have been). I just think Vendor should include uber perks imo. Even if Vendor cost is raised to \$120 instead of \$100 or something.

Vendor is a dedicated role for marketplace extra permissions not a role for public permissions, hope you got the answer.

It's two completely different things.

SIM-3257834 - September 26, 2019, 8:19 pm

The way I see this is. I don't want to pay for a dedicated forum upgrade but instead I want everything to be included on a marketplace upgrade.

Omniscient - September 26, 2019, 11:01 pm

I chose not to do this.
