Thread: [Highway speed limit?](#)

CHUzi - September 27, 2019, 8:29 am

What do you think of highway speed limits?

Should the speed be unlimited or limited should the government increase the maximum speed we can go?

Some countries have unlimited speed they can go at some stage of the highway.

Those that are driving are usually just careless and are not able to make it.

Why can't they make drive license where they would test your ability if you can drive that fast or no.

Lol man you are funny.

Thats impossible

Because that's just a standard policy and under government authority, it is not possible to give different licence and make different rules for different citizen anywhere in the world.

They have spent decades to simplify the rules that you are questioning in one sentence. ?

We have unlimited speed limit at some of our highways.

We can drive as fast as we want to, those roads are usually straight, no curves.

Ha Haaa - September 27, 2019, 11:12 am

I think it should stay the way it is. Speeding only puts you at risk of an accident.

Linux X - September 27, 2019, 11:17 am

Here the speed limit is 140km/h. Its kinda stupid but .. our roads are shit as well.

"Some countries" is only Germany as far as I know and it's not unlimited anywhere in the highway, there are some parts that have speed limits where they seem to be needed.

Damn they actually have no speed limit in certain areas?

Does that mean you can go top speed in something like; say this
https://en.wikipedia.org/wiki/Koenigsegg_Agera

Yes that's right, I mean Germany.

People usually drive here up to 250Km/h and there are no accidents. (155 Miles)

Czech Highways are limited to 130Km/h but they plan on increasing it, there are usually no radar and we can easily drive 160 - 180 Km/h

Problem is that czech highways are usually broken. 130 = (80 miles) 160 - 180 (99 - 111).

And I'm not talking about Bosnia, Serbia, Russia, Ukraine etc, nobody cares just the roads are not the best :D

Kind of.

TheRecklessZebra - September 27, 2019, 11:38 am

Well they wont increase the speed due to increase of accidents/deaths and i mean it would be cool if there was no speed in the middle of nowhere but go that speed at your own risk.

Blogger - September 27, 2019, 2:09 pm

Well, I think they're necessary to help prevent accidents. It is at that specific speed limit in that specific area because it works for that specific area after researching data, so no, I don't think it

should be increased. And an "unlimited" speed limit is just moronic. Even autobahns have a speed limit, and not a very high one.

SIM-3257834 - *September 27, 2019, 3:16 pm*

Damn this would actually be a great way to control the male population. I'm all for it if that's the case.
