Thread: [Help getting into password protected galleries/download password protected pictures](#)

fifalwt28 - September 27, 2019, 12:21 pm

hi, i'm very much a noob and im trying to get into some password protected galleries on sites like iheart radio's photoshelter and vipnation's smugmug galleries. some pictures on photoshelter have a password to be downloaded.

how do i get around this? i have a mac. thanks in advance

I might open up a thread where it involves help on recovering a password on a website real important to me than just deviantArt, pixiv, Tumblr and more including or excluding Twitter and Patreon actually. : \

I dunno if anything like Beginner Hacking, Private Investigation Methods and Anonymity, Requests for Hacking or anything like a "hacker-based" or "password recovery based" board/category be the right place for, if confused actually. @o@?
