Thread: [Student Email Method Create Unlimited Student Emails \[UNLIMITED .EDU's \]](#)

Natas - September 30, 2019, 9:16 pm

Hello HF in this tutorial I will be teaching you the student email method I have been using the passed couple years to make student emails.

I been making student emails for a long time now and have even sold a lot of them ! I am no longer wanting to take the time to make

thease my self for any one any more. So I will be making this tutorial for when I or you see some one who needs one just link them this tutorial share the love and let them get one for free.

What can you use this for ?

You can use a student email for multiple things, trials, special offers and student packs that get you free stuff and tools.

you can also use thease emails for student benefits and as well as unlimited google drive storage and much much more !

So first you will need a email to create your email with you can use temp mail real fast and it works fine.

How ever if you use temp mail I recommend you remember your security questions and answers incase

you forget your log in information and you will still be able to recover your account.

Temp mail here

<https://temp-mail.org/>

You will also need a name and information to use to create your .edu email !

this is important because you want to use ALL the same information the whole

way through if it asks for your first name twice you don't want to give two different

first names this will for sure get your email rejected instead of approved ! So keep this tab

open the whole time or save the information your using in a notepad.

Use this for the information on your account

<https://www.fakenamegenerator.com/>

[CLICK HERE](#)

And click new user then sign up with email sign up with all the information from fakenamegenerator, make sure to remember all of the information that you use ! beacuse you are going to use it all again when you apply for a school, you will have to verify your account through email and then you can exit out of temp mail.

After this click continue and you will see where it says "APPLY" you are going to want to go to apply and choose the academy where you want your edu email. Honestly it doesn't really matter witch one you choose how ever I have chosen ones that stopped me and not approved me and denied my email so I had to start all over. So I will give you the names of the best schools I have had great

success with.

Southside Virginia Community College
Southwest Virginia Community College
Rappahannock Community College

So click any of these schools the three above are ones I have had no problems with and click apply on it.

Then you will have to fill out all info that it asks for ! Just use the info from fake name generator rather than

using your own personal info. When you give your address it might say its not accepting it but it will ! you have

to click you know that that address is yours and it is correct and it will go through.

Code Racial or ethnic identification: White

Hispanico or Latino : No

Have you ever applied or attended : No

Is this your permanent address: Yes

High school education: I don't have a GED/High

Last date attended: 05/10/2019

Highest grade completed: 11th

I have planned to earn a degree: No

I plan to start class: Choose any

Have you ever served U.S military: No

Parent 1: Did not graduate.

Parent 2: Did not graduate.

What is your current status?: Native US

Primary spoken language: English

Do you want tp: No

After submitting your information you will have to sign a electric signature and after you submit that they will give you your username and password you will need this information to sign in and get your edu email ! This is a very important that you save this information down in a text document for you can sign in so make sure to save the information they give you at the end of your application.

[CLICK HERE](#)

And sign in with the information they gave after you submitted your application ! But please beware it can take up to 24 hours

for the school to verify your application and its possible that they wont. If you are not able to sign in right away dont stress, just wait

a little bit and try again. If its over 24 - 48 hours and its still not letting you sign in most likely they denied your application and you will have

to start from the beginning. And most likely you gave them bad information or something that looked sketchy for them to deny you. The more you do this the faster you will be able to get them done or make them. I hope you enjoyed this tutorial and it helps you out enjoy your .edu emails and if you have any questions don't be shy to PM me.

NineteenNineteenine - September 30, 2019, 10:10 pm

GG, definitely gonna use this to take advantage of some promotional offers, even tho im a student myself :P

Bithurry - September 30, 2019, 11:27 pm

Thanks so much! Appreciate it so much THANK you!!

Natas - October 1, 2019, 2:28 am

No problem enjoy the method hope it helps you guys.

Last_viking - October 1, 2019, 4:03 am

It works with github student pack?

Pawnhub - October 1, 2019, 4:45 am

Natas nice tutorial I remember getting one of these from you. Hope it don't get patched but good job!

You can use the student email for student benefits.

fidusobe - October 1, 2019, 8:35 am

I have seen several stuff about this edu emails if you don't mind me asking what can you get out of this emails? A link or explanation would be greatly appreciated:D

Also does this work worldwide?

Joel - October 1, 2019, 2:18 pm

This is definitely gunna get even more saturated than it already was. So grab as many as you can while possible my gamers.

Its been working like 4 years that I know of, I am hoping that it does keep working and doesn't get saturated I dont believe it will unless every one shares it on other forums and stuff. But we will see how it goes.

Veyp - October 1, 2019, 4:33 pm

Trying it out.

Will post back in a few minutes if it's working and if I can redeem.

haunterr - October 1, 2019, 4:46 pm

Didn't work for me, keeps logging me out when I try to click the apply button (tried diff browsers)

Can you post a picture I made one yesterday when posting the method it made it easier for me to write it out so I know it still works.

I use fire fox make sure you have your tracker off and be on a american IP. One of thease could be your problem.

sp??k? - October 2, 2019, 6:00 am

Thanks, hope my application worked

S????i - October 2, 2019, 7:03 am

do you know if this works with amazon prime for uk? I know edu is america so not sure if it will work

wadisnake - October 2, 2019, 8:28 am

Thank you !

Everything worked as expected, but when I try to open the email from the newly activated account at myVCCS (the gmail logo) there is an error ? I believe it takes some time to activate to email address ?

Usually it takes a hour or two, did you use a temp email or your real email you could see if they said anything to you if you used your real email.

If it doesn't work you might have to make a new one and hope it gets approved.

wadisnake - October 3, 2019, 7:07 am

I used a temp email and it's still working

I will try a new application using my email and will let you know

Quote:Welcome to SWCC Philip!

Congratulations! Your SWCC Admissions application has been accepted. Please check your application confirmation for the next steps in the process of getting started.

I think it been approved, but still same error saying my email address doesn't exist when I open from my account

Natas - October 3, 2019, 2:52 pm

Hmm thats strange I litterly made one when I made this thread.

Did it give you a username and password before you got the email ?

wadisnake - October 4, 2019, 1:05 am

yes I did

I created a new account and it's working now ! Thank you !

Thanks for this tutorial, I saved this thread ?

I'll probably use it soon, thanks !

piskellodevil - October 14, 2019, 1:38 am

Has been patched?

When you try to create a new account you get this:

"New applicants will not receive a functional VCCS.edu email account until making a financial commitment to a VCCS institution."

I never seen that before.

Tried 24 Hours ago, after a few hours i got the e-mail that my request has been accepted, but when i try to access my Edu e-mail it says that my account has been disabled.

Tried to register a new account, and this message appeared...

I got the same message, everything went well and I was able to create a new account, but my email account is disabled

Natas - October 14, 2019, 4:27 pm

It takes 24 - 48 hours to receive your email.
keep me informed

I'll wait for the 48 hour deadline to see if it worked for me, by now thank you for the tutorial!!

LCFR - October 21, 2019, 7:49 pm

Does this work for spotify/hulu?

footprintz - October 22, 2019, 12:50 am

Using those two sites, makes it easier to get into some platforms for testing without submitting your real details. Good One Mate.

Did you try it ? I think it still works.

Some one else posted that too but a few dudes told me it was still working.

rbrtsluk - October 29, 2019, 5:39 am

Yep thanks for sharing this mate really appreciate it but I have the same problem as .iniFile. Its asks you for your social security number?

or you can select these:

- I do not have a SSN (International, non-residents of the U.S., etc.)
- I would rather not enter my SSN at this time. I understand this may incur significant delays to any financial assistance and could result in IRS fines as detailed here.

It has worked for me but I'm not in the US and having trouble accessing the email.
Also for those looking at github package I was asked to prove my identity with a photo but you can take a screenshot of the portal logged in. The approval process is still going.

Talking about using other peoples ssn is against the rules here so I cant tell you to do that.

But I will tell you you still can get a account using fake name generator use all information from there.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.
