No this has nothing to do with what you mentioned, the methods are unique and my own that I've been using. 100% whitehat and legal as well

interesting.

Good luck selling my guy!

Would love to see some vouches from trusted users, not from a newbies whos only deals is with you and can't be sure they are unique. Posting to come back and probably buy, if coming getting more legit vouches.

Does this have something to to with selling stuff to people / auctions ?

Does this require you talk to people?

Does this have anything to do with setting up shops or (re)selling items? Dropshipping?

edit: works worldwide?

I am asking all of these because i don't like selling stuff. I prefer things that are 99% in my control and not depend on ... other people. Hope you could answer me and do it in a way it does not

disclose anything specific. Thanks.

As far as an update to this for potential buyers there is a waiting period to get the method going I am still waiting to get in and it can be saturated if we're all using the same company I had asked this in DM but no response. The rest of methods are public but they're bonus(free) methods what you're paying for is #1 and if it works it can be very good but again it can be ruined by someone coming in and getting greedy or making a mistake IF we are all using same company which from others who have purchased may be the case.

Thanks

Edit: Will update when hear response if any from company.

How should one make a mistake with this or get greedy when all we have to do is wait?

Still working, actually 3 of my withdrawals went through today ?

GenkaiWolf - October 25, 2019, 7:52 am

I ended up making more today. I think the main thing to take into account is patience. No matter where you end up using yet, you're gonna need it. Don't do the method and then quit your job right after.

(Oct 27, 2019 09:34 AM)Mudkips Wrote: [\[CITE\]](#) I was accepted 4 days ago and still no payments and no replies to my DM when I paid for 24/7 support.

I would not recommend anyone purchase this until I receive my payments that are supposed to come in or he resolves. This is not a 20 min setup I bought on 18th and still have not been paid a time and have had to repeatedly DM seller and post on this forum to get his attention.

If I don't get any payment by Friday and not able to cash out on my net30 then I'll be charging back or expect a refund. I'm starting to suspect this method is his business or he is involved so none of the payments are legitimate.

Prove me wrong and I have no problem removing this post but until then I'm not convinced sad I have to post this to get any movement.

Honestly, he still has not responded to me and I even created a dispute he told me to cancel it and then went ghost again. I was able to get approved and got some money in from the method but I have been waiting since 10-16-19 for my money to be sent to my PayPal.

How did you even get approved that quick? Like 2 days ago you bought the method?...Most of us have waited up to a week..and still waiting with questions that aren't getting answered via HF or discord.

I can understand peoples frustrations.

My account isn't even "verified" on the website and still waiting. Not sure what else im supposed to do now.... and dont keep telling me to be patient. I have been very patient with him.

Ive also noticed, allot of the new "buyers" have less than 10 posts (some even 2) surely thats a bit fishy. Why sign up to a site and the first thing you buy is this?? Lol, absolutely fake buyers!

LaFerrari - October 27, 2019, 2:51 pm

Hi everyone,

This method is still 100% working and earnings are still going strong but as the posts above point out, I have been really backed up with messages lately. Because of travelling I am doing through Europe over next two weeks the hours I have on my pc is limited.

As a solution, I'm hiring a few support members who will help all contracted customers through a Discord server.

I want to make sure everyone gets the support they need to earn to the full potential this method can offer. ?

I am getting through to everyone and will provide some sort of compensation to those who had to wait a long period of time for support.

If I don't already have your Discord please PM me so I can add you to the customer chat.

Also too many times people have tried to take advantage of me; action will be taken against those

of you who have tried to take advantage with refunds and trying to commit fraud with my method. It just slows down support for buyers that actually need it because I'm stuck dealing with this

I'm working on some updates for Instant Revenue that will include another unique never seen before methods free of charge for those who already purchased the Gold package ?

I am closing the thread until I get through to everyone! Will open it again soon.

I hope everyone is seeing good earnings

He paid extra for full setup from me and got approved instantly

I don't appreciate you jumping to conclusions about my buyers, probably more than half my buyers are new members, and it's certainly the same for other ebook sellers as well.

All my contracted customers are 100% legitimate and I can provide proof for that

Also I will be refunding those of you who talk down on my method or can't be a little patient to end up making big profits, you are not the type of person I want to work with and I don't want your \$60.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.
