Thread: [Pineapple on pizza? Of course... Here's The Real Deal](#)

First off, black olives. Why would you ruin a perfectly good pizza with those things?

OT:

Anyway, I recently stopped drinking and I've got more cravings than a pregnant lady.

I'm thinking... bacon on a cake (Bakin cake... I'll show myself out)? Thoughts? Hear me out. Has anyone ever seen those bacon cheeseburgers that have donuts for a bun? I thought it was dumb but at this point I'm ready to throw some mustard on one of those bad boys, maybe even dip it in sweet and sour sauce. Maybe even a birthday cake wrapped in bacon. I'm telling you guys, idk what it is about not drinking that brought out 100% fat boy in me. I never eat sweets, but I'm down for some Bacon cake right now. I feel like I'm 14 years old again and just smoked my first doob.

Sounds legit... right? Or am I just losing it

Please for the love of all things holy re-arrange your award order lmao.

Put the Purple Gift where your Red Gift is now, move your Red Gift to where the Pot Leaf is now,
and move the Pot Leaf to the end of the row.

It would look DOPE.

Black olives are so nasty on pizza I would much rather have pineapple on my pizza than olives but again I would like to just have a kebab pizza.

I'd say smoke another one and make that bacon wrapped cake and send me a slice lol
