Thread: [Byte Scratchcards are BOGO! Wow, wow, wow... \[Sale Ended\]](#)

Omniscient - October 1, 2019, 2:56 pm

For a Limited Time only. The HF Byte Scratchers are Buy One Get One free. This means if you buy a \$25 scratchcard, you'll get 2. If you buy 4 Scratchcards, you'd get 8.

This is only good for the crypto purchasable scratchers. And when I say Limited Time only, I mean it. You have maybe 48 hours tops to take advantage of this sale.

Buy now!

Great feature; great idea; and a great addition to hackforums! I'll be eyeballing these.

BTC - October 1, 2019, 3:01 pm

Everyone go buy the \$100 scratchers!

You got 2/200 odds of getting 250k bytes for \$100

Selling them at \$6/1000 bytes you would get \$1400 profit. fixed cause lavish is gey

That's some pretty good odds

Zexi - October 1, 2019, 3:05 pm

Bought a 10\$ one, got one for free. Scratched both and only got 1k bytes. FML.

Is it because i am cheap? ?

That's not how percents work lol

If you buy 100 of them, you are not 100% guaranteed the 250k win.

With your logic, of just x2 the odds of winning... would mean there's a 198% chance you don't get the 250k bytes. Zzzz

Ironically his 2/200 post is accurate for the odds of winning 250k Bytes on a \$100 scratchcard.
However his earlier post stating 2% is incorrect. So he tried to express his original 2% as a fraction and accidentally failed his way to the correct 1% chance of earning 250k Bytes from a \$100 scratchcard.

Absolutely. Especially given that the \$100 cards have guaranteed 100% wins. The minimum win is 5k Bytes. For \$100 you get 2 cards and guaranteed at least 10k bytes.

It's not like we've sold 5000 \$100 cards. But there has been three 50k and one 100k winner out of the small amount of sales we've done for the \$100 card.

Quote:I've seen one 250k winner. Shelob

He did that with a \$10 card which was a 0.005% chance. And btw, I might add he did it twice. He has the highest wins so far.

Top win on the \$25 card is 625k Bytes BUT that card is not a 100% guarantee to win. You could get 0 ? win.
