Can You Add XMRig Proxy or xmr-node-proxy To Lime Miner?

D3ath_GuN - October 9, 2019, 2:53 pm

Hello,

What is the list of algos that can undermine?

Can we use for the algo: YescryptR32 ?

PwnedLevel1000 - October 13, 2019, 7:30 am

it was detected by bitdefender as a phishing attack because your using ngrok

uzi420 - October 15, 2019, 4:54 am

Going to test this out.. I've had great success from your programs in the past keep up the good work Nyan.

MrD3 - October 21, 2019, 4:30 pm

Nyan, thank you for fixing Lime Miner!

NYANxCAT - October 21, 2019, 4:39 pm

^ Hey guys, I read all your posts

Thank you guys, I really appreciate your support.

rgmzgn - October 23, 2019, 9:13 am

thank you for sharing this software,

i would like know what pool i can use for this silent miner? BTC.COM ? / SLUSHPOOL ? etc..

KAZINIR - October 24, 2019, 7:00 am

Thanks as always!!

good share bro , keep it up good luck

doomer3 - November 4, 2019, 3:44 am

i like the grammer on the jpg on this trend paasword

blade001 - November 5, 2019, 10:08 pm

I have run this on my PC. Can you please tell me how to remove it now?

SystemGhost - November 7, 2019, 12:17 am

So far the miner looks great! But I am having some trouble. After I make the build and run it, my cpc usages shoots up to around %50... which is great! But when i check the pool my hash rate is 0. My computer definitely seems like its mining when i execute the build... but when i check the pool it shows nothing. I have tried over and over and tripple checked to make sure my address, port, user and pass is all correct. Is anyone else having this issue?

PS: dont know if this has anything to do with it, but i am trying to use this with supportxmr pool.

...I take that back. It seems to work great with the MinerGate pool! I used "x" for the password and wala!

I was also wondering if this miner will be able to take advantage of the GPU?

Have one last question :P ...When selecting the injection (im not very familiar with its purpose). What should i choose, and why?

SaltyPeanuts - November 10, 2019, 4:02 am

Hi. I've ran this on quite a few, but nanopool shows it being active for not very long each time it's ran. Why is this?

PM'd you :) Thanks in advance.

PDGLOBAL - January 14, 2020, 10:12 pm

My miner also seems to drop offline after a while of mining.

SIM-4473964 - January 20, 2020, 5:34 am

very nice one ;D lets ceep the thread alive

YoYoatYo - January 20, 2020, 4:33 pm

Hey guys, i'm a complete noob but interested in mining. can someone give me a quick tutorial or explain to me what this programm can do? I dont even know what "RegAsm" "RegSvc" and "itself" stands for...

sorry and thank you!

Stogidout - January 30, 2020, 3:51 am

This is great thank you so much for the share ?

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

Nice share and btw the AV Scan URL is not working anymore

Alexandrupavel188 - September 13, 2020, 10:27 am

still work?
any update work?

real plug - September 18, 2020, 10:34 pm

forgive me to ask. this brings any popup or cmd or is this silent install ?

TormentedSoul - September 18, 2020, 11:39 pm

1. If the miner is running properly, your configuration is right but you don't receive hashes in the pool, it's probably your Firewall (that's why Heavens Gate > RunPE) or the miner is not updated to support RandomX (latest hard fork).
2. Regasm etc. are native Windows processes in which the miner injects itself via RunPE. That way it's way more stealth, has higher privileges and doesn't drop anything on disk.

Mr. Atlas - November 16, 2020, 2:20 pm

It does not work anymore .

It's a shame I hope that Nyan will have the courage to update one day
he has so much software to manage

person666 - November 22, 2020, 12:21 am

Thank's nyan it's a beautifull tool :D
