I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,

Hit me up with a vouch copy please mate. Thanks

**Xen** - October 12, 2019, 7:20 am

Received a vouch copy a few days ago and I have to say it's fast, easy to use and overall it does exactly what it says on the tin.

The support from Joel is great and he is happy to give a run down on how to use it effectively. Give it a try, it definitely helps if you're into drop shipping on eBay.

Also - It's only, \$14.99.

(A contract was used to purchase, not sure why it's not showing it above this post)

**Elcamino** - October 12, 2019, 7:43 am

very interested in this will come back when i'm home!

They aren't needed. If you want to use a proxy just open a free vpn before you run the program.

It's not what i meant.

I meant like how could ebay count your views with the same IP? Because this would work same for youtube views perhaps.

Not even close to similar sites haha. Ebay was made over 15-20 years ago and has had their code barely touched since then.

Aight! Remember it is the 4th Quarter. This is where most companies make over 80% of their total revenue! So don't sleep on it too much ;)

BUMPEROO, BACK ON THAT SHIT. I PERMANENTLY REDUCED THE PRICE AFTER THE CHRISTMAS SALE.

**Chold** - February 19, 2020, 11:02 am

Just wondering,, won't this many views cause more damage than help, since you're item is getting a lot of views, but not many purchases in comparison? Making it look like a 'flop listing'?

I'm interested in purchasing, but I'd just like to know that my theory is incorrect first.
