Thread: [Omegle Bot | Ewhoring, Marketing, Spreading, Anything!](#)

Meterpreter - October 5, 2019, 4:52 am

I'm not going to have any fancy thread design. This is it.

I am selling my Omegle Bot. Custom coded. No captcha solving services needed. No high-end proxies needed.

Features:

- HTTPS Proxies
- {NEW} Socks Proxy Support Added
- {NEW} Proxy Authentication (User:Pass)
- Supports sending a single message

The application is built in C# and is a console application. You put your proxies into proxies.txt and you run it. Give it a message to send and press enter, done!

Other applications say they get 20-30 adds an hour. This bot got me 30 adds in a MINUTE. 2 vouches coming where 1 user got 7 adds in one minute using out-dated mostly dead proxies, and another obtained 60 adds in 3 minutes!

I will be adding more features upon request, but at the moment the bot simply takes a message and sends it.

Multi-threaded - It will reuse working proxies until they're all dead! Thousands of adds

Price: \$15 /week | \$50 /month | \$150 /6-months | \$300 lifetime

Payment Methods: BTC / AGC AUS

Devices: You can use 1 device only

Program is now ready for release! Taking orders!

I'm actually surprised to see this. It almost seemed like for a while I couldn't find a decent omegle bot provider. I'm not in the market but I get on there from time to time just to fuck around. Its kinda sad to see you just completely bypassing the verification lmao. Nice though. Good luck with sales!

Look man, I'm just trying to find me a nice girl to show my dick too on snapchat. LOL. Oh wait, there are so many!!!

Anyhow, I noticed bot traffic died down a bit after the verification was added. Its pretty funny you can easily get around it. Just shows how much of a joke the devs are over there.

Used this tool for E-Whoring, i can say, if you are a beginner to E-Whoring it is quite useful, got me about £85 ish past two days, with about 2 ish hours of work.

Overall, its a good tool, ive been using proxies from Proxies24, which i do regret buying, even though i have used them for a long time, you do NEED HQ Proxies for this tool to be viable, ive just been using proxy lists from other forums, and so far im getting about 25 - 50 Messages sent each time i run the program, which is fine by me, as its rather HQ Traffic.

So, overall, if you are looking for a good traffic bot, then this is definitely the one for you. Thanks for making a HQ Product Sys :)

Yes for one PC, but will allow a couple HWID changes with good reason

Pretty much, the amount of threads will be predetermined based on your processors capabilities

I am interested in buying

thisaintascam - January 30, 2021, 11:15 am

are you still selling it ?

Meterpreter - February 4, 2021, 2:33 am

No longer selling this bot.

I may in the future develop another bot with the same and more capabilities.

PM if you want a custom bot developed.
