Selling my private twitch viewer bot - comes with other features like account creator, chat, follows, and page views

Lifetime - \$60 BTC or \$65 PayPal

Monthly - \$25 BTC or \$30 PayPal

Proxies required for functionality. Free proxies work fine, but paid are preferred for best results.

Very interested. Do you sell a list of accounts and proxys that work? Also does it work on Mac (OSX)?

Stop potentially lying about making a sale to trick other members. Ask for proof people. The user CreativeGuesser bought it and he can happily vouch for it.

You need to stop accusing people with your false assumptions, thank you.
