I am giving away free 30 day access to my Forex signals channel. You will have to join a broker under my affiliate and deposit a certain amount.

This are the results for last week:

You can view the new results live here:

Hello. Do You offer copy trading, or I would have to check for signals and execute by myself?. I asking, because from my experience it is almost impossible to follow all signals specially if in different timezones

What session do You focus on with Your strategy. Thanks for reply
