Hey everyone I am looking for more active IG pages in the Business / Finance / Entrepreneur niche to join my engagement group. You must be willing to be active and engage with every post sent. (like AND comment required) We want to help each other grow and if you only take and don't give, you will be removed.

Let me know if your interested.

Hey bro if your still looking for people i own a instagram about spirtual and personal growth, using quotes that promote zen, love and peace. Which is not really business sided how ever it is inspiration and motivation! Which helps create value for the consumer!
