FAQs

#1 How can I get the codes after payment on Selly store? Is it automatic? Or do I need to contact you after that? Is it instant delivery?

The codes will be sent to your Selly email address automatically after the successful payment. Please note it is your Selly email address, not PayPal email address. Also please check the spam folder of Selly email box. For Selly email address, it means the email address you input on Selly site, make sure it is correct. Sometimes the codes email is sent to the spam box. For PayPal payment, it is instant for a successful payment. For cryptocurrencies, confirmation is needed to be completed first for a successful payment. For a Gmail box, do not forget to check Gmail Promotions Tab and spam folder.

#2 What is the Stack number for an AWS code? Is one code one-time only? Or can it be applied multiple times?

For a given Credit Name/Event ID, a limited number of codes can be applied to one AWS account. The limited number is the stack number. There are many possibilities for the stack number, such as 1x, 2x, 4x, 5x. So please check this stack number carefully before purchase. Also please note that the code is one-time only. You need different codes to reach the stack limitation. And the stack limitation is a life limitation. If the stack limitation is reached, you cannot use that Credit Name/Event ID codes in the future months too.

#3 How many codes can I apply to one AWS account? What is Credit Name/Event ID?

Credit Name is same with Event ID. They are just different names. Credit Name is the key to code purchase. For one AWS account, it can apply codes: Credit Name1 x stack for Credit Name1 + Credit Name2 x stack for Credit Name2 + Credit Name3 x stack for Credit Name + ..., if you can find endless Credit Name codes, you can apply credit endlessly too.

#4 How to check the AWS Credit name of the AWS account?

On AWS console, click upper right username, "My Account", "Credits". Here you can the current codes credit name list. However, please note that The AWS "Credits" part refresh every month. And the credit name stack is for lifetime. So please keep a full credit name list every time you applied a new code. You need to keep your own code credit name record to avoid credit name stack issue.

#5 What is the difference between EDU codes and Non-EDU codes?

Generally, they are the same. Since Non-EDU codes are rare and hard to be gotten, Non-EDU

codes are expensive. If you do not need it urgently, you can wait for the EDU codes since they are cheaper.

#6 What is the difference between EDU codes and Non-EDU codes, besides the price difference?

Besides the price difference, Non-EDU codes support more AWS services. EDU codes support 46 AWS services. Non-EDU codes support 72 AWS services. So if you need some special AWS services, Non-edu codes should be better.

Cheap AWS(Amazon Web Services) EDU credit/promo/coupon codes, \$150/\$100/\$50/\$40/\$25 credit codes with different AWS EVENT IDs

Credit Name: EDU_ENG_FY2020_IC_Q1_1_AWSEDCATE_100USD
Expiration Date: 31st January 2022
Stack: 2x stackable
Value: \$100
Event ID starts on 11th January 2020

Credit Name: EDU_ENG_FY2019_IC_Q4_12_AWSEDCATE_100USD
Expiration Date: 31st December 2021
Stack: 2x stackable
Value: \$100
Event ID starts on 8th December 2019

Credit Name: EDU_ENG_FY2019_Q4_11a_AWSEDCATE_150USD
Expiration Date: 30th November 2021
Stack: 2x stackable
Value: \$150
Event ID starts on 24th November 2019

Please note: EDU_ENG_FY2019_Q4_11a_AWSEDCATE_150USD is not the older

EDU_ENG_FY2019_Q4_11_AWSEDUCATE_150USD. There is an extra "a" in the new credit name. So they are two different credit names, and they can be redeemed together to the same AWS account. EDU_ENG_FY2019_Q4_11a_AWSEDUCATE_150USD is the newer one.
