Dear community, I would like to present the DIGNITAS AGENCY. We offer a full-stack solution for anyone who's looking to start their own website or an eCommerce webshop. We specialize in building Shopify and WooCommerce websites for eCommerce & business/personal websites built on Wordpress or Squarespace. Besides web development, we offer a wide variety of additional services like graphic design, content production, social media management, social media advertising and consulting. In order not to overwhelm you with information, you can visit our official website and read more about what we do/offer.

(this applies for both Shopify & WooCommerce)

DEVELOPMENT - Pretty much self-explanatory. This means that your store will be developed using premium themes and put together part by part with custom content that we produce.

RESEARCH - We will do research for you and find the potential of your product. You will get a well-written report that will provide you with additional info about your product and the way how to market it. It includes a list of your competition and their strategies, relevant keywords and hashtags, an audience that you should target and many other useful information.

CONTENT - This is one of the most important parts of every successful store. You can't just copy and paste the content that you find on other websites. First, it's illegal and second, you need to have your own unique style which will improve the relationship with your customers.

DESIGN - What is a website without an eye-catching design? After consulting with you, we will create a concept for your logo and after your approval, we will also create other graphics (banners, product images, videos) that will be implemented to your store and make it look unique and professional as it should be.

SOCIAL MEDIA - Once we're done with everything related to the store itself, we will create up to 10 social media posts based on your brand's appearance. This also includes setup and implementation of Facebook Pixel. You can see examples of our social media posts by clicking on a [LINK HERE](#).

MARKETING - Another feature of the full-service plan and probably the most important part of every eCommerce business. Developing the right advertising strategy is a hard process and takes a lot of time and money to find the right one that works for you. We will help you build your advertising strategy by doing the right research.

SUPPORT - We are happy to offer you 2 weeks of support with anything you need regarding your store. This includes small changes, tweaks on the store and changes in the content.

FULL-SERVICE: \$450 (CryptoCurrency, Bank Transfer, PayPal) SIMPLE ONE PRODUCT STORE (FULLY BUILT SIMPLE STORE WITHOUT OTHER FEATURES): \$200 (CryptoCurrency, Bank Transfer, PayPal)

BUSINESS WEBSITE: \$500 (CryptoCurrency, Bank Transfer, PayPal)

PERSONAL WEBSITE: \$250 (CryptoCurrency, Bank Transfer, PayPal)

#1 - SUPER FAT VOUCH for OP. I found his store through a friend and decided to pick up a store!

The quality of these stores is just amazing. They definitely put time into them and dont just half ass everything. The images, the layouts the colors ALL A1!!

The Support?
FANTASTIC!!

OP answered ALL of my questions BEFORE & AFTER the transaction. Plus made it super easy to fix some of the hosting issues i was encountering.

Highly Recommend and I will definitely be buying more stores.

Thanks again for the HQ Store and Support. Best of luck with the new updates and sales OP

- Anyone who asks, i bought the store outside of HF, thats why theres no contract. I follow the rules fam.

(Mar 5, 2020 01:47 AM)taap Wrote: [\[CITE\]](#) I was very skeptical regarding OPs service. He told me he believes in hard work & all the stuff he offers for only \$350 might sound a bit too good to be true. But I was really impressed by the results, he does indeed work hard & delivers exactly what is advertised, if not more.

I can't vouch for his service enough. I highly recommend this to anyone looking to buy a premade or custom store. You'll learn so much aswell, he has a lot of great information & knowledge to share!

Communication/Support 10/10

passCODE / Blackskarab is very active and answering all & any questions I've had very quickly. He's been patient with me aswell, answering my noob questions :)

Store quality 10/10

He does everything from start to finish and doesn't leave anything half/poorly done. There's nothing on my store that I want to change.

Honestly I've learnt more about ecommerce working with OP than I have from all those shitty ebooks promising \$10k/month

Updates & News:

We are working hard on creating more product packs and if you want to see what we have to offer, please send us a message. For now, we stopped working on premade stores because we need to be fully focused on crafting product packs which take us a lot of time.

A discount of 15% is still available for all of our products and services (including custom store development) and will be available for the next 5 days.

Update:

We decided to separate product packs from this thread, so from now on product packs will be sold in a separate thread that will be created today. We have built five new product packs, so now there's total of 8 packs available, all of 10 products. We also accept orders for custom product packs, it usually takes a day to create it for you.

We are currently working on adding more premade stores and building our Instagram fanbase. We have many ideas on how to improve our service and one of them is adding a partner system and private group for all of our clients where you'll be able to learn and discuss for free.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,

If you're looking to start an eCommerce business, the right beginning is to build an awesome looking store that will convert and catch an eye of a customer. If you have an idea, contact me and let's build it!

passCODE - December 27, 2019, 7:15 am

Soon we will be closing this thread and starting a new one for our digital agency. We will still offer eCommerce services, but the prices will be a little bit different.

passCODE - December 28, 2019, 2:16 pm

Announcement: Dear members, clients and friends. For the last few weeks we've been working on developing a new website for our agency, that is now renamed into Dignitas Agency. From now on, you will be able to find us on this domain <https://dignitas.agency/> where you can read more about services that we offer, prices and more. I'm still not sure whether should I close this thread or just change the content and name of it because we will still offer the same services + some new ones.

Black Skarab website will still be online and we will keep publishing premade stores and product packs there. But from now on, if you are looking to hire us, you can just visit our agency's official website and even contact us there. Our team is growing, we're becoming better and bigger and we hope we'll get more clients, both from this forum and online in general. We have some cool ideas and we're working on them, as soon as we got something ready we will announce it here on the forum. I wish everyone only the best in the year 2020 and I hope you're having a great time with your families!

Best regards,

Dignitas team

It's literally posted in the OP.

Kyubi - January 14, 2020, 1:24 pm

Just bought the full package.

Will leave a detailed review once it's all delivered and running.:)

passCODE - January 22, 2020, 10:52 am

Finishing the last project, we should expect a review soon.

We were thinking about doing some changes, adding more features to the service, tweaking the prices and some other stuff. We'll keep you updated with the situation.

News:

Our new website is up and running. The old one blackskarab.xyz will remain online until our domain and hosting plan expires. From now on, you can visit our new official website dignitas.agency if you want to learn more about our services and hire us. We're not doing only Shopify stores anymore, you can hire us for all kinds of projects related to web development, for example, if you need a website build for your business, your personal (portfolio) website or just something completely random. We're also doing social media advertising and for that please contact us before starting the contract because the price has to be decided based on the amount of work needed.

passCODE - January 29, 2020, 9:07 am

Offer of the day: Get 10% OFF your next order! Instead of paying \$400 for the full service, you can pay \$360.

passCODE - January 30, 2020, 4:37 pm

Answered all messages on both discord and skype. If you have any questions or want to know more about eCommerce, feel free to send a message anytime.

A special offer for a 10% discount is still available. All previous projects are finished so we can take a new one.

Kind of late with the Review / Vouch but been busy xd.

#1 - SUPER FAT VOUCH for OP. I found his store through a friend and decided to pick up a store!

The quality of these stores is just amazing. They definitely put time into them and dont just half ass everything. The images, the layouts the colors ALL A1!!

The Support?
FANTASTIC!!

OP answered ALL of my questions BEFORE & AFTER the transaction. Plus made it super easy to fix some of the hosting issues i was encountering.

Highly Recommend and I will definitely be buying more stores.

Thanks again for the HQ Store and Support. Best of luck with the new updates and sales OP

- Anyone who asks, i bought the store outside of HF, thats why theres no contract. I follow the rules fam.

Thank you very much for the kind words! I hope you achieve your goal with the store :)

Special offer of the day: 50% discount on the full-service! Instead of \$400, pay only \$200! This offer is on the table for 24 hours only so hurry up!

passCODE - February 14, 2020, 8:09 am

We just launched our new website and this thread has been changed. From now on, premade stores will be sold in a separate thread, dedicated only to that. In this thread, now you can see two services that we offer, eCommerce & Website development. Our eCommerce solutions are built on Shopify and WooCommerce and our business/personal websites are built on Wordpress & Squarespace. For more information, you can visit our Dignitas Agency website and learn more about what we offer.

FOR THE NEXT 2 CLIENTS WE HAVE A SPECIAL DISCOUNT FOR 50% LESS!

passCODE - February 16, 2020, 11:11 am

We updated the official post with the link to our other thread where you can find premade Shopify stores.

Visit it here: <https://hackforums.net/showthread.php?tid=6049814>

Finishing the last project and after that, I'm available to take new order.

taap - March 5, 2020, 12:47 am

I was very skeptical regarding OPs service. He told me he believes in hard work & all the stuff he offers for only \$350 might sound a bit too good to be true.

But I was really impressed by the results, he does indeed work hard & delivers exactly what is advertised, if not more.

I can't vouch for his service enough. I highly recommend this to anyone looking to buy a premade or custom store. You'll learn so much aswell, he has a lot of great information & knowledge to share!

Communication/Support 10/10

passCODE / Blackskarab is very active and answering all & any questions I've had very quickly. He's been patient with me aswell, answering my noob questions :)

Store quality 10/10

He does everything from start to finish and doesn't leave anything half/poorly done. There's nothing on my store that I want to change.

Honestly I've learnt more about ecommerce working with OP than I have from all those shitty ebooks promising \$10k/month

Thank you very much on this amazing review!

And notice for others: Prices are back to regular but due to post edit limit I can't edit the thread. Full-service eCommerce is back to \$400, simple single product store is \$200, business website is \$500 and personal website is \$200.
