Thread: [\[BUG\] Stanley Didn't give us our October 11th, 2019 Check In Thread !](#)

Natas - October 11, 2019, 12:27 am

Making this thread just in case something is wrong I don't want any one missing a day.

Usually when Stanley Bot makes his new daily check in thread he closes his old one and a winner is chosen and given 250 bytes

This last thread he made on 10/10/19 is the first one I seen that he closed and didn't choose a winner and he didn't make a new check in thread.

He closed his thread but didn't pick a winner for 10/10/19 and didn't create a thread for 10/11/19

Lets hope this gets fixed and we don't lose our days ?

Here is the link to his latest thread. You can see he never chose a winner.

I'm sure they will get it taken care of I just want them to know in case they can get it fixed without it resetting our check ins

I'm sure they won't forget about that since that's the whole point of the thread.

Has he done this before ?

SIM-3343347 - October 11, 2019, 2:19 am

Its just a feature made by Omni so we never reach the award for lols

I don't think so. Maybe admins decided to stop this daily check-in feature.

I guess we'll have to wait for Omni to wake up and give us more info.

Did you post in any of the threads? Because all of them got merged and it all counted for me lol

Natas - October 11, 2019, 2:50 am

I wonder if it has to do with the sticky in the lounge I honestly have no idea tho.

Fortunate - October 11, 2019, 2:54 am

I am looking to check-in before work, because otherwise I might forget it!

Zexi - October 11, 2019, 2:58 am

Hopefully everyone loses the days so we can all start again from 0 and all get it on the same day, because at the current rate there will be people who got it 50 days before me.

Omni mentioned he tweaked system time yesterday and I responded to thread 12 hours later than usual but didn't miss it (didn't post much previous day could see the day before thread in my posts) so I let him know there might be unintended consequences to the alterations. He thanked me for the the report, I imagine he's maybe looking into it still - possibly related to why Stanley is bein all sleepy in the head.

Cooligan - October 11, 2019, 3:18 am

@Everyone: There were two check in threads yesterday, somehow it glitched.

Meaning that yes, if you checked in on both threads you received 50 Bytes. However the thread from yesterday still counts as a day checked in seeing Stanley's thread is still up.

Check your Award Goals page to see your percentage AFTER you've checked in today, I'm almost positive that the number will only go up 1% and will not reset. <-- My theory.

duck - October 11, 2019, 3:22 am

Please excuse Stanley, he's having tough day.

He was really drunk last night according to one of my verified source, and now he's on hangover.

Give him few more hours, he should be getting up soon.

Thats wierd there were 2 threads yesterday ? I only saw one it just threw me off cause I been making 1 post per day and seeing it go up only once I dont wanna miss that 1 day and loose all my days I was only at 12 yesterday after my post and I am still at 12 today It threw me off that stanley didn't give any one the bytes award making me think something was wrong.

Queen Haylee - October 11, 2019, 3:26 am

Some how I missed a day but I've been checking in everyday religiously...

Your bytes history

<https://hackforums.net/myps.php?action=history&uid=1201566>

They looked identical and Stanley closed the first one when he posted the second one so they were never on the front page at the same time

+1 BV1 shall not get the award before me

+mK - October 11, 2019, 6:08 am

I'm almost positive it's because Makaveli posted a sticky inside The Lounge, making the Check-In thread not the only object that sits in the position.

Yeah thats what I thought to or that some one bumped a post at the exact same time or something something buggy happened I just hope we dont got to start from 0
