Hi ? .

I have one little question.

There are any method to download all ebooks from this website?

<https://dwnlg.cx/book-n/>

I'm a little newbie in this things but i want learn how to do it.

If you know a method for do this you can explain me.

Sorry for my very bad english, and thanks ?

Well, the easiest would be using wget.

But JDownloader is also an option if you don't have a Linux machine.
