Thread: [Changin IMEI Phone](#)

Mixerit - October 13, 2019, 9:01 am

Hi wanted to know how to do so a specific phone would change IMEI every startup or something like that, i dont know if its right subject thread but please help me i want to learn how to do that

fermoric - October 13, 2019, 9:34 pm

I've actually been waiting for someone to show me. I'm even willing to pay for tutoring

SheLiedsheWas16 - October 14, 2019, 6:52 am

yes i have this on my android have to root it and use specific scripts :)

Goku - October 14, 2019, 7:03 am

I think it's called spoofing and if you have an android device you need to root it

duck - October 14, 2019, 7:05 am

or change the mother board.

Make root then read [this](#)

?Satanic - October 14, 2019, 1:28 pm

You'll have to use a rooted Android device and any app regarding EMEI :P

Xex_ - October 15, 2019, 8:06 pm

as everyone has mentioned just root your device and poke around you can change more than IMIE numbers with root and go even deeper into models and build ids

DarkKnight149 - November 26, 2019, 12:47 pm

i once payed a service to Minh Nguyen Tâm (facebook name). Hes from Tawain and does it remotely.

MrD3 - November 28, 2019, 7:44 pm

I'm pretty sure its illegal to spoof IMEI
