Thread: [\[INTERNATIONAL\] MARRIOTT HOTEL | CORPORATE EMPLOYEE DISCOUNTS |](#)

Woods - October 13, 2019, 7:41 pm

Hello Hackforums,

Today I'm bringing you some major discounts on Marriott Hotel rooms Nationally! I'm able to grant any person access to corporate discounts on 3-Star up to 5-Star hotels giving you rooms for night stays for as low as \$39 a night! I will be selling the discount forms only given to employees at Marriott courtyards for \$200 a year. Not only can you get booking in the United States, but this works for all Marriott hotels internationally!

Price:
\$200 yearly

Rate Depends on (30-60% off):
Hotel Stars
Room Type
Booking In Advance
Vacancy of Room

So what are you purchasing?:

A form that you will need to show the front desk employee to receive your discount. The form will be valid for several months with an expiration date, once the date on the form is expired just contact me and I will generate and email you a new form through the employee's system.

How it works?:

So my employee will be adding your name to his "family plan" so you will be able to use the rate and your name will be in the Marriott system, so your ID must match the name you give me to be put under the plan. (ID & Form will be asked for upon arrival to receive room key)

What is this good for?

- Have a family vacation coming up and need to book a hotel room for a cheap stay.
- Need a place to stay for the night after a date or function.
- Out drunk and just need a cheaper place to crash if you can't make it home.
- Just wanna have a night away from home in a cheap hotel room.

How to use check your rate & use form.

1. Check your rate for the stay at Marriott.

- Go to <https://www.marriott.com/>

- Go to book a hotel and under "Special Rates" add the code "MMP" for you to see the promotional discount price.

This is where you can see what a corporate employees would pay and they are given this so their family members are

able to book the rooms and use their discount they are given.

2. Book your room.

- This locks in your room and your corporate rate and you will be able to get your discount once you are able to prove you

are on a manager's family plan!

3. Arrive & Pay Discounted Rate!

- When you arrive you will be able get your discount when you show your form & ID to the front desk employee!

Terms of Service:

Failure to follow these and complaints will result in termination of your name in the system. All employee's are notified

if there was an issue of any of their guests.

- Must follow all hotel rules.

- DO NOT smoke in the rooms.

- All expenses must be paid.

How far in advance can I book a room? Let's say I have a vacation coming up in 6 months, if I book from now do I save with the code or is there a chance the code or this method won't work in 6 months?

Yes this works for all countries.

(Oct 15, 2019 01:59 PM)Carlo Wrote: [\[CITE\]](#) Very interested in this, aren't they going to notice this employee adding so many people to his family/friends plan?

This is not monitored by Marriott as it is through the employee's portal, there is no way in telling how many people are REALLY family members and there are different sections (friends for example) for all people to be added (You will see on top of form once given). They are a huge company that do not check individual employees portals.

Just make sure the current form I give you isn't expired as these forms are only generated for a few months in advance and need to receive a new one from me after every expiration.

This is a constant question I'm getting so let me clear it up.

You will be getting the "Explore" rates because you will be added as a family member not as a "friend."

My homie is a flight attendant for a major airline and he lists me as his companion giving me basically the same benefits as him rather than being a guest or friend.

Bump for this service because it's most definitely legit and i'm very satisfied with my purchase.

Bosika - December 10, 2019, 1:02 pm

@ Woods can you please help me out how to find the exact price I will be getting for a room with the special rate you are offering? I am looking for some rooms on the website you provided but I can't see anywhere what you say to look for. I get rooms to select and see two rates. One is regular and the other one is member which is only like 2 USD less. But no mention of the special rate. I click to continue with booking thinking I can find it there but then it asks to register myself and that's it. If you can PM me or send me a screenshot where exactly to look and what to look for will help me a lot. Thanks.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

I have a section in the thread that explains if you go to marriott.com and how to use the code to see the discount you would get. The payment is done when you are at the hotel.

Reread my thread, it was typed so you already understood the process before you purchased from me.

Anthony Soprano - December 22, 2019, 2:19 am

I am very interested in this, there is no 6 month option or something? I am just scared to pay for a year and have it not work down the line.

Also, there is a explore rate and explore friends rate. Which one is it?

I already wrote a message before where I clearly said I read your thread description and it isn't there to be found when I follow your instructions. I also asked if I do have to make a registration in the website of Marriott.com You replied to my second post. Still I can't see any special rates so therefor I think it doesn't work and wanted to know if others can see it. Here is what you posted in your thread:

Go to <https://www.marriott.com/>

- Go to book a hotel and under "Special Rates" add the code "MMP" for you to see the promotional

discount price.

This is where you can see what a corporate employees would pay and they are given this so their family members are able to book the rooms and use their discount they are given.

EDIT: Now I finally got it to work correctly. It is that in some countries or cities it doesn't work. Even now it shows only very few hotels the discounted price and for other hotels that show up it says rates unavailable. Lets see if I play around with more cities and other dates.

National Security Agency - December 22, 2019, 8:28 pm

Has anyone purchased a certificate? If not I'd be down to purchase one maybe at a discount?

CouncilSlayer - December 23, 2019, 10:54 am

So being that I was a recent employee of Marriott, the portal for how many friends/family added is actually monitored by each individual property.

With that being said, and you're offering this to random people; what's the guarantee that you'll be able to still offer this for the year; if some random guy on here goes and purchases this from you; and trashes his room and then that hotel property goes ahead and blocks your employee from utilizing his discount?

If someone using your discount trashes the room, acts very inappropriately, or just does something bad in general; they can revoke your discount at any time and also potentially get your employee fired as well. Do you have a backup system or would you be providing a refund if that were to ever happen and someone was unable to use the discount?

Also have another question regarding this; I can't remember if the form has my name on it or not; I believe it does name the employee..

If it does name the employee; what if someone reports this employee to corporate and they disable his discount or just end up firing him?

I'm actually curious as to how these would be resolved. I am curious to buy the package; as I've actually enjoyed multiple cheap hotel rooms that would otherwise cost me hundreds and only cost \$90/night instead of \$300

Reedf27 - January 7, 2020, 1:33 pm

Willing to buy for a shorter amount of time. Have a travel coming up but its only for 3 days, so will be cheaper to order standar rate.

Possible with 6 months for 100 ? Open for offers

JasperRed - January 8, 2020, 12:30 am

I cant even get it to show the 'special rates' or anywhere to put a custom code. Such bad instructions by OP, no wonder no one is going to buy.

EDIT: i finally got it to work, you have to choose Corporate THEN enter the code.

Anyway...it just doesnt seem worth it? I have to pay you \$200 yearly (most people only going to use this once or twice a year). But im only making a \$30 saving per night (average on most hotels i saw) which means i would have to book too many hotels to be even worth making the saving. (and before you say different hotels have different rates, thats pointless as everyone needs the hotel close and convinient to them not one the other side of the city which has a bigger saving)

I see what your trying to do here, charge people yearly to maximise your profit in case they dont go multiple times, but its just not going to work for the consumer.

Your only going to get customers who go marriot ANYWAY and just save a few bucks by using you, not the other audience who are willing to use marriot instead because of a decent saving.

I would actually be interested if you adjusted your pricing matrix.

xxstationxx - January 8, 2020, 6:08 am

as i see from the OP post,

i got no problem with the \$200, but can i do take multiple booking at a time? so in my business mindset, i will have some advantage to with the form.

let me know,

CouncilSlayer - January 9, 2020, 4:51 am
