SCROLL IN THE THREADS FOR VOUCHES

What this service is exactly?

I book uber rides and I do uber eats food and alcohol orders on discount.

DISCOUNT is FLAT 50% OFF

It is FIXED AS OF NOW for both rides and uber eats.

How is the process done?

For Uber Eats-

- You just have to send me your cart screenshot like this ' <http://prntscr.com/pi5v30> ' (ADDRESS HIDDEN)
- You have to pay the amount via PayPal / Btc (Since this is completely white hat, I am offering buyer protection by allowing you to pay as goods/services
- I will make the order and will be connected to you till the food gets delivered and will notify you the delivery details.

Minimum amount per cart : \$30

I just need your address to make the order nothing else

For Uber Rides-

- I need the location from which ride has to start and the location where ride has to end.

Payment methods: PayPal / BTC / Eth

Hi. Are you offering vouch copies? Does this work anywhere in the world?

Wafflemonger - October 14, 2019, 12:49 pm

I have a question ... why would you hide your address, but keep the map shown? Kind of defeats the purpose ... no?

Yes it works in most countries.

I would love to offer one vouch copy depending on how trusted a person is. I am waiting for more comments here. I will select a person surely to offer a vouch copy.

Well I am keeping everything hidden, I won't disclose anyone's address who makes the order. If anyone here has address issues, you can take delivery to some nearby famous landmark which is on the map.

I'll like to try. I'm from Argentina, im not sure if I can use this service

Stuni - October 15, 2019, 5:37 am

These are the orders I did today, I am hiding each and every detail including order number, restaurant name and items. So if you're ordering from me you're completely safe. :)

Can you provide proof that this is white hat and not black hat in any way? Or we just have to take your word for it?

Well how can I prove it? You can tell, if that is okay with me I will prove it with no issues.

Also a billion dollar company like Uber would allow blackhat activity? I don't think so.

You prove that you're not paying the full amount with a credit card. If you can show this, I'll order.

They don't allow black hat activity but they do have loopholes which they don't seem to give much importance too.

TheMedigator - October 16, 2019, 12:34 am

This has to be fraud, cannot see any other way it would be done

If you don't know about something, Why you think it is a fraud?

and If you came to know about the way i am doing this, you would be a seller and i would a buyer which means you would be in my position if you know this method

Well if there were any loopholes they would have shut them by now. they open this up to increase their sales. like if you go and search about google adwords . Google adwords is a website which provides coupons to google adwords users to uplift their business. And those coupons are like In \$10 worth of spend you can advertise for \$25 (just an example) . So here also uber provides the same.

It is worth a try of small amount. I know what I am doing :)

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
