So,im dumb as fuck . Two days ago i was prepare to e-whore and wanted to get a comfy position in bed but because i have mental disorders unknown to modern medicine i am very clumsy and dropped my laptop on the floor and my HDD cracked,is a new fucking begining for me. Imagine that all i have ever gathered in 4 years,vanished,all the pack picks,all the sites i used etc. I`m asking for help in finding a pic pack. I had 2 main pic packs that i used and o dont have no chance to remeber where the fuck i got it from. I`m using a technique where i tease the client,i had a perfect pack,with 50 photos where the girl was taking pics in the mirror naked,in the same clothes, and slowly losing clothes and do sexy pose ,it was like heaven this pack, like a striptease in selfies. Anyone can help me with something similar? Or maybe you have the exact pack, the girl is a little chubby and average looking si im not looking for hot girl pack. Thanks in advance and may your inbox pe filled with amazon GC by the order of Ewhore Blinders! haha
