Need VPN Panel

All protocols openvpn lt2p etc etc all protocols i mean all vpn protocols.

- admin/members area
- certs users, loadbalanced node usage split users if a server hits example 80%
- switch from location etc

just a full working thing inc payment modules.

it needs full work and unique not obfuscated public rebuild shit.

dont sell me that shity panels thnx

Alright, so it's safe to say you're paying, yes?

Find the marketplace, and post there instead. This is usually a commonsense sort of deal, but apparently you have none.
