Thread: [Ebook Making Huge Money](#)

I been interested into ebooks, and I've seen them around here making 500 dollars a day and 10 thousand a month.

All I would have to do is spent 25 dollars and I would become a millionaire overnight.

What are your thoughts on this approach how much capital do you think I can make?

I reckon you should go for it, sounds very promising to be fair... eBooks don't lie.

That's where your wrong sir ebooks on this site don't lie. There's a reason their selling these ebooks for 50 dollars or 20 dollars they have too much money.
