What you think, if i scam them i will open a sale thread ?! I could just make another account and sell this thing.

So kindly fukoff and check their "Last Seen" date , + the info i provided on disputes. Thanks.

I wasn't here for some months cause i went to new country and couldn't come to HF.

Also if you dont trust me dont post sh*t here random, i dont really care. If you wanna buy you will, if not then just leave the thread. :)

How can one say "You can't lose," when it comes to gambling?

Pain - October 17, 2019, 4:47 am

I have always questioned methods like this. It is advertised in a way in which you will become rich in no time, yet you're selling copies for \$100... It is not logical at all because why would you even sell a method in chances of it getting saturated(if it really works) and also why is it so cheap if you can make so much.

If i dont sell a copy in months i still dont care, the only reason why im thinking about vouch cause there are too much people who cry and blame me + those guys who trash sale no reason... Can't deal with them. T_T

Some + is always good. I can't abuse this method, basically its IMPOSSIBLE, you can earn well but it wont work with big ammounts! I still have my own lists and other stuff what i dont provide to the method, and it will work for very-very long time, but for now i cant tell more cause dont wanna make it fully public.

You cant really earn millions or thousand \$-s /day. Its not a quick rich-scheme, but it will earn you money for sure, and \$500 is possible / week, but you need to work for it, not even close to autopilot or semi-autopilot.

Also, i will lower copy numbers and rise price. Just thought about this, and its worth more im sure + i wont sell to new accounts, so dont even PM if you have like ~25-50 post and registered 1 week ago, thanks.

Not gambling method luls.

And yeah, what you think if i have 1000 post it will give me trust?

I've seen members with over 200 B-rating to exit scam, so dont really care about post numbers. I could just spam whole day and farm 800 post in 1 week, but to be honest, i dont care about post numbers.

If you trust me you will buy, if you dont trust me then u will blame me and trash sale, but there will be always this 2 type of ppl. Thanks for your Ironic "Good luck", appreciate it. ?

Im still not in a rush to sell, i can wait months, or years, i will still earn my money. For now i wont answer more trash sale, and toxic, hater posts.

Go make millions with your \$1000 signals, why u dont just all in and make million , why u need to sell if you make 3k in 5 min for example? You see i can ask stupid questions aswell.

I just dont like people who trash talk without reason. Your post count wont give you any + trust, or

Where is the "buyers" vouch? If he bought it anyway, he could also type here what he finds..

My Review/Vouch

Ok i wanna start off by saying, i think op should sell 3 copies like he said before (ok i might have imagined it since i can't find that post anymore?)

But reason for this is you don't want this to get saturated and thats a big issue with HF and HF ebook sales. (Also if you sell 3 copies leaks won't happen as much (ik 2 copies extra omg))

Look posts, he bought first copy for \$100, and i wont sell 2. copy under \$150 cause i will only sell 3 copies. (Cant add that to first post.)

I said nobody left review, because its not a review. I mean its mostly just a feedback that he will try the method, and he told its looking good + that i should reduce copies to 3.

I didn't get a vouch copy. Thats my transaction with the seller.

2. Im on a trip currently so even my other review on another product i bought (\$500 product) is on hold too. So i don't have much of an internet connect, stable connection or a device except my phone with me.

all i can say at this moment is it is solid in theory and i doubt anyone else is doing it at all. im happy i took the chance of \$100 for this personally :shrug:

so there isn't any lies and im not a kid >:CCCCCCC

I know. As i said, you were the only one who purchase and leave a review. The seller has said he was waiting for review so I have assumed there's another buyer
