Thread: [What is wrong with Ewhoring?](#)

ModernUSA - October 16, 2019, 8:29 am

If someone checks Bragging rights section the most bragging was done on July this year from there no anyone is bragging any more, at my side I am not making money even if I spent hours in front of my phone and laptop.

Ewhoring methods used in the years of 2016 and back is not working anymore, can anyone share with the working method currently, I have tried on android chatting apps but the problem guys there wont accept to join kik or snapchat.

Please. Do. Not. Make. A. Thread. Asking. For. Basic. Information.

You have 181 posts on this website, and you don't fucking think to use the search bar before asking "how to approach" them, literally one of the main things needed to eWhore, you don't think basics behind it haven't been written about?

You can't make money if you're not willing to spend some!
