Thread: [\[EUW\] League of Legends boosting to gold](#)

I offer really cheap boosting to gold.

What you get for reaching gold:

Gold Summoner Icon

Gold Profile Trim

Gold Loading Screen Border

Victorious Ward Skin (2x Queues)

Victorious Champion Skin (Chroma Per Queue)

Honor Ward Skin

Price per Division:

Iron: \$10

Bronze: \$15

Silver: \$20

only bitcoin/paypal. prices can be lower/higher depending on your lp gain.

I won't change your summoners and i will disable the friends list (pretty much just appearing offline) while i boost.

Doesn't matter which champs you own and of course i won't flame or anything.

You should change your password before and after the boost and have a verified email so your account is safe and you don't have to worry about anything.

Also willing to duo.

How do we know you aren't just botting the accounts?

Uhm I've never heard of botting accounts in ranked, I mean silver/gold isn't good but I do think they should be able to beat bots.

Anyways, if someone wants me to prove that I'm playing i can do that ofc.

You play league and never heard of people scripting?

How about an option for duo'ing with the person? I think some people won't trust giving account info

away

I know about scripting and ofc bots use scripts that's how they work but I don't think their macro is any better than running down 1 lane.

Yeah right, thanks for pointing out.

The thing with duo is that if the other person doesn't have time to play it's pretty annoying, but i'm willing to duo.
