Thread: [OpenBullet Config Service \[Many years of experience\]](#)

Beyonder - October 17, 2019, 1:08 am

Hello HF

I have many years of experience with config making in Sentry MBA and other cracking tools. I currently offer a free config service for OpenBullet as I thought this would be a good way to introduce myself.

I can make normal configs and/or selenium configs depending on your needs!

Please use this format when asking for a config:

Quote:Login URL: url-here

Capture: Yes/No and what to capture

Working Account: Free/Premium

Useful info: if you have any other information that will help

You can post below or sent me a PM, posting below is preferred.

Thank you!

ub33r - October 17, 2019, 3:48 pm

can u teach me and help me to setup, im happy to pay u

Beyonder - October 23, 2019, 8:21 am

Still offering this if anyone needs my help.

Beyonder - October 25, 2019, 10:28 am

Online and ready to help.

Hey man, thanks for this giveaway. I've never used openbullet before but just wondering if you have any Netflix / Spotify / Crunchyroll configs for sentry lying around by any chance? I know they're pretty common but have not been able to find a working on these days after a long break from cracking.

Thanks in advance mate.

OreonPvP - November 6, 2019, 6:11 am

He did a really nice config for me! Big vouch for that guy and his work for this community.

Thank you really much!

hilton including many other sites uses akamai security which is kind of hard to bypass.

I still haven't bypassed it but I am working on it, I have working hilton config I made from alternative URL, but i can't share it sorry.

It is worth to much ?

tbugz - November 11, 2019, 11:47 am

there are configs with akamai bypass out there in the wild

Beyondr - November 11, 2019, 1:56 pm

(Nov 11, 2019 12:47 PM)tbugz Wrote: [\[CITE\]](#) there are configs with akamai bypass out there in the wild

Akamai Bypass or simply alternative URL like I have found?

I doubt you find Akamai bypass for free in the wild, if so feel free to sent me one of these configs so I can see if its a real bypass or not.

tbugz - November 11, 2019, 1:59 pm

Its out there bro just Google blackbullet config with akamai bypass...i wouldnt say it just to say it...there are config makers looking exclusively for sites with akamai bypass to make configs for

Beyondr - November 11, 2019, 4:39 pm

(Nov 11, 2019 02:59 PM)tbugz Wrote: [\[CITE\]](#) Its out there bro just Google blackbullet config with akamai bypass...i wouldnt say it just to say it...there are config makers looking exclusively for sites with akamai bypass to make configs for

Outdated configs, the google results are not gonna give you any akamai bypass....

So give me a link or something instead of just saying its out there, I know people who made bypass who won't share cos they can sell it for \$1.000 or more.

It's easy saying something is out there, but that doesn't make it true mate.

I made a "bypass" but it's not legit, all I did was code a script in a language that emulates the javascript of a website and sent me back the akamai cookie, which is not a real bypass and it doesn't work for most akamai protected sites, only for some.

So any link is appreciated, but saying its out there does not really help any of us ?

I cracked thousands of reddit accounts in the past, I should have a config laying around.
I am sick with the flue atm, but I will check the config soon and sent it your way.

Will take a look thanks.

Proxyless is probably not an option with these old filehosts and I am 90% sure uploaded.net uses generated password
