Thread: [The HackForums Group Chat: My Fairwells \(Free userscript inside\) \(Free memes inside\)](#)

Nachfolger - October 23, 2019, 5:00 am

As some of my boys may know, I am perm banned from the Hackforums group chat. The demise of me was 100% attributable to my wonderful userscript, that was praised by friends and foes alike. I will release a lite version of this userscript, but don't blame me when you get closed by Omni. In light of this atrocity, I figured I would make a shoutout to all the bois and grills who made it fun for me.

My dear friends,

[MavenGradle](#) - You're extremely smart when it comes to coding and development. The only reason we get along is because of the unbreakable bond formed inside the group chat. If it weren't for that, we would be arguing in the dev sections 24/7. Love u fren

[Bossk](#) - You're swedish, and I cannot forgive you for producing [Gretta](#), but you always had the freshest memes (I stole a lot from you).

[MOHX](#) - Although you won't seem to admit you bought me several awards (at this point). Aside from the fact that you go to bed very early, you're a rad fella. Thanks for the fun.

[Zexi](#) - If it weren't for you, Flavoral, and BTC during the first few days, I would not have stayed in the chat. Keep up the good work, and keep over paying for dev work. love u cutie

[Flavoral](#) - You always seemed to have an attitude, but you were nice in the end.

[Spaark](#) - Although I think you added me to your group as a meme, you let me stay. Thank you for being nice. Keep up the good work of sending gay things to people.

[BTC](#) - You are a little pussy who has yet to voicechat us, but your sister has A1 nudes. Keep up the good work

[Uncle Jay Jay](#) - Although your new name is literally aids, you were a cool fella, even before MavenGradle upgraded you. Keep it up

[is_nimda](#) - You disrespected my authority at the start of your HF chat journey, but we ended up getting along. Keep up that RegExp work.

Luke - You were a brat 24/7 and frankly, the attitude you pretended to have was annoying.

[Natas](#) - Your spelling of feet made me chuckle every time I saw it. Keep up the good work, you make me proud.

If I forgot anyone, it's not because you weren't important, it's because you didn't chat with me enough.

As promised, I am releasing every meme I used in the Hackforums chat, I hope you guys will continue my legacy.

-- <https://imgur.com/a/xdW8CE8>

-- My personal memes, keep them OG. <https://imgur.com/a/31DggAt>

As promised, I am releasing a very lite version of my userscript. It indirectly got me banned, so use wisely. I'm not releasing it to meme staff, it's just for anyone who was interested in how amazing I am at JavaScript.

-- <https://pastebin.com/Vbhbnm6N>

Although I will miss the chat dearly, I can finally do homework without getting distracted. Keep it real, my dear friends. You made my life fun.

I always found it funny how your signature says:

Code If you get butthurt easily, avoid any post by me.

At first glance you seem like the kind of guy you actually wouldn't want to argue with and you might even perceive yourself as hostile towards others whereas in reality you're just having your fun. Beneath all that there is actually a cool guy, who's eager to help others out. You are by no means a troll but an actual asset to this place for the sections you contribute to are very much better thanks to your valiant efforts into correcting mistakes and helping those in need.

Now, in regards to Uncle, his legal name is no longer Jay, it's wee wee. You should know that. Get better soon, nach, and I hope to see you again in convo.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
