(Nov 17, 2019 07:20 PM)qingo00 Wrote: [\[CITE\]](#) Great job from Nyan!

I am using well known HF crypter too and it is completely useless. Only usage from that crypter is to scan stub from Nyan's crypter.

I would like to test it , thansk bro!

EDIT:I just test a few RAT's both .NET and Native works great , no erros, great job bro! ?

Exe - October 23, 2019, 11:14 pm

Works with .NET / Native Rat's

Scan went well with "Install enable"

(Oct 23, 2019 11:14 PM)void Wrote: [CITE](#) Works with .NET / Native Rat's

3 detection weird I thought it would be like 5+ because it's an old stub.
Thanks bro

Hi,

I'm interested to test the crypter.
Come in PM if you want give me a copy or nothing if you don't want.

Thank you Nyan Cat !

NYANxCAT - October 24, 2019, 7:14 am

Thanks all, I will PM you now.

Keys will reset every x hour to prevent misuse.

Natas - October 24, 2019, 7:21 am

Whats the detection rate and what licensing system are you using I am just curious ?

I got a crypter coded in scratch from 2012 I have a high detection rate tho and
dont think I will ever put in the time to ever finally finish it lol. But congrats bro

Damn I just seen the others posts those are some really good detection rates for your stub did you
code from scratch ?

I scanned and it got 2 detections (antiscan)

I'm using my own licensing system and the stub I coded from scratch.

I am using well known HF crypter too and it is completely useless. Only usage from that crypter is to
scan stub from Nyan's crypter.

Can confirm Nyan knows exactly what the fugg he's doing. My test on a Quasar exe came back with
a 2/26 when I had Key-logger ENABLED.

Also tested on his Crypto grabber with install and got a 3/26

All of the detections I got were on slightly less used AV's which is not a problem for me. If this goes
for sale I would definitely buy it in the future.

I love your creations Nyan

EDIT:

After this feedback nyan gave me some more tips, I have achieved FUD 0/26 by just a few small
setting tweaks. This. Guy. Is. Amazing

I would like to have it, thanks.

LampShed - November 26, 2019, 10:41 am

Hey man would love the link. Love the use of Async so this should be good. Thanks!

Stanley - November 26, 2019, 8:36 pm

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

need the crypter pls help with the link ok

LampShed - November 27, 2019, 5:09 am

[Results...wow. An old stub?](#) ?

Very easy to use and simple UI. And the results speak for them selves.

For an old stub crypter to get only 1 result is pretty awesome.

Just done with a basic .NET RAT.

Thank you for the Month Copy. Look forward to future additions. Hopefully I can help you test future copies be sure to send me serials for updated versions ?
