u will find it with vedio on youtube

luckythandel - October 26, 2019, 12:08 am

please don't upload it on youtube, it banned immediately.

bro, can you bypass 360 safe protection?

Emans8412 - November 8, 2019, 8:21 pm

He doesn't share anything

I bypass WD 10 and ESET with powershell execution. But issue is that it has no startup. once
victim PC restarted Powershell off and virus did not up it self again.
