Thread: [cookie stealer is over now ?](#)

LayersOSImodel - *October 25, 2019, 2:50 pm*

Is this the end of the cookie stealer on chromium based browser ?

Since the new update of 23 October chromium software changed their cookie policy settings, now you can even export cookie in json format with editthiscookie plugin the import will be useless as it doesn't work anymore.

I haven't had any luck with chrome cookies in a while they started to encrypt them now
