Thread: [Someone to convert PDF to Word document](#)

Helltoy - October 28, 2019, 12:57 pm

Hello,

I have PDF of a scanned document and I need that in word so I can in future edit text on it. The scanned document has form (tables and some weird font format).....

I need 99.99% it to be the same.

I can pay so please DM me with your price.

Thanks.

BreadMaker - October 28, 2019, 1:01 pm

Hey i could do this please PM me the size of the PDF and il give you a price,
Thanks

MavenGradle - October 28, 2019, 1:08 pm

There are literally dozens of sites that can do this for you:

<https://pdf2doc.com>

https://www.ilovepdf.com/pdf_to_word

<https://www.freepdfconvert.com/pdf-to-word>

<https://www.pdfword.com/>

There's no need to pay someone for this.

However, if it was scanned as an image and put inside a PDF you can have some luck converting it to text using any of the following tools:

<https://www.zamzar.com/convert/jpg-to-doc/>

<https://online2pdf.com/convert-jpg-to-doc>

<https://www.onlineocr.net/>

Yup I know but this but it won't be that easy.

ALL this "converters" detect text but noon of them won't detect table and properly font type and size.
