I'm available for your orders. Contact me now!

(Nov 5, 2021 11:03 AM)Meow Wrote: [\[CITE\]](#) + Vouch for Razw and this graphic design service.

I ordered a thread design, banner, and an animated signature from him with very specific instructions and details on how it had to be done.

He was in the trenches, fighting HF signature limits, thread design sizes, and color palettes... and he ended up on top.

Everything was done professionally and within the agreed timeframe. I requested several edits to both the thread design and the signature and he swiftly changed everything and made sure I was happy with the result. I had a feeling he was going to call my mom and ask if she likes his thread design, let alone me.

Fair price, excellent overall end product, and swift communication is the reason why I'll use him again, if needed.

He's a master at both static and animated designs, and I think he's your one-stop-shop for all graphic design work.

A breath of fresh air in the congested graphic design marketplace ran by people who have 3 months of experience, but charge like they design graphics for Adobe.

Thanks for an amazing service.

Stanley - January 15, 2020, 12:13 pm

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

Razw did recently a signature with a thread design for me, all I can say is that I'm extremely satisfied with the result and with his services, if you're looking for something gfx related then let Razw do the job and you won't regret it. ??

Razw is an experienced graphic designer, i've hired him for Sellup.io

His Animated banner works is absolutely worth paying for, he has no problem re-doing work either if you don't like something, and he works quiet fast as well.

His pricing is definitely reasonable, i've paid \$130 for a full package that includes everything i need to bring Sellup to the next level in terms of looks, however due to the fact that he delivered more than what i originally asked for, i've tipped him \$20 to round it up to a total of \$150.

Well worth the money.

A huge vouch from me and i'll definitely hire him for future work for my other projects as well, no doubt about that.

Purchased a static thread design and signature from Razw about a week ago for \$100.

His designs seemed top tier and decided to go with him.

If I have to be completely honest, I was slightly skeptical at first. His designs were all great but I was worried that mine wouldn't be up to scratch.

What I failed to realize was that working with Razw is a process. It's more than just handing over a few bucks and expecting a design back. It's an incremental process that both you and Razw have to go through in order to create something great.

After working through things with him, we ended up creating a really great thread design that surpassed my expectations.

Thank you!

Bullup - January 15, 2023, 1:53 pm

Since my first job went so well with this users (my first review about that first job can be found in the thread here as well) i decided to hire him another time.

This time he made graphics for Cryptomander.com and i'm very happy that i hired him again. He listens to feedback, does unlimited free revisions, and does a lot of extra as well.

Again, definitely worth the money he is asking!
