Thread: [Lets start a project together! \(Free Web developer\)](#)

runegp - October 29, 2019, 10:31 am

Hello, recently my latest venture wasn't that successful and it led to me and my partner to go apart.

I'm looking for partners that have cool ideas we could do together.

I can write all sorts of web-applications, and I can do this for free, if you can manage the marketing part of our idea.

I am unfortunately out of ideas, but if you got something cool, then lets put 2 heads together and make some \$\$.

Regards Daniel.

I have an idea not sure if you'd be interested in it or not. I'll add you and maybe we can work together
