Thread: [German SMS Verification or site to buy German Number](#)

Junx - October 31, 2019, 9:44 pm

I need a SMS verification for Germany or a site, I will pay for either (make sure the site doesnt require any documents, I dont have those just for a simple sms.)

Or how much you want for your sms if you are in germany.

VoIP or nonVOIP is cool

Hey Junx,

I might be able to help you out with this, but i need a little more information: is the thing you need the numbers for white hat, grey hat or black hat? How many messages will each number receive per month? At what time GMT+1 will the messages be sent? How fast do you need the messsages forwarded to you?

Best regards,
Vox
