Thread: [Failed entrance exam for Dream Air force career. Fuck it !](#)

ankitkhosya - November 1, 2019, 6:28 am

Title says it .

Didn't prepare for it properly and underestimated it, It fucked me right in the ass.

posting to Vent for it.

Going to try again for it ofcourse.

Just go thoroughly with exam syllabus and you'll definitely get through AFCAT for sure.

Its was CDS , conducted by UPSC.

well , i knows about guys entering after 10 or more attempts so they are kinda inspiring but failing the exam still makes me sad.

Get ready for the next time and give it another try.

Zero - November 1, 2019, 9:08 am

Don't feel too bad man. It's not easy.

Just don't give up and keep trying!
Good luck!

You failed to prepare to join your countries armed forces? Don't try again unless you're work ethic and attitude improves.

SubGenius - November 1, 2019, 12:28 pm

What kind of test was it, i am pretty curious.

Slim - November 1, 2019, 1:24 pm

You say you underestimated it... how? What kind of questions did they ask?

Rsynced - November 1, 2019, 1:26 pm

Bummer man, keep trying, you should get it if you really want it.

Yeah, That's actually a very valid point.

i applied for officer's selection but could not clear the min. sectional cut off for a section, the rest of total score was quite high.

I think you went to the wrong kind of air force examination, especially if it fugged you in the ass.

Reading the title reminded me of David Goggins - he wanted to enter the Air Force, but due to his poor reading ability he failed the entrance exam twice. He just kept plugging away for the rest of his life and that really got my respect - that no matter what he was down with, or what life threw at him, he kept going at it. Nothing could stop him.

I understand that - nobody does I'm sure. :)

But there's to be a right balance when it comes to the stress - in my personal experience at least, when I tell my brain that I want something that much (and that there's such a high stake to it), things go really bad or not up to expectations. My guess is that when that happens, I was focusing too much on the fear of what could go wrong.
