Thread: [\[WTS\] Spotify personal account upgrade Completely automated](#)

Knipe - November 1, 2019, 8:22 am

Long story short I will upgrade your account to premium for 1 year with a warranty , I dont offer a lifetime warranty as i dont believe it is real.

The process of the upgrade is completely automated and does not matter if im awake or not you can still upgrade your personal account anytime of the day.

How does it work?

Simply head to my website : [Spotify upgrade - Home](#)

Go to shop page to purchase a key

Go to upgrade , paste in the key you received in the email and choose your desired country (if your country is out of stock you can dm me on discord and i'll refill the stock).

Click Upgrade now , The site will show you the invite link and the address of the family owner so all you have to do is click the invite link and copy the address and you'll become premium spotify user.

Reseller packages also available for those of you who want to resell and make some money on the side from it just check out the Shop section.

Last but not least my discord is : Knipe#5768
[contract=tid]Start Contract[/contract]

bumping this thread offering 1 vouch if anyone wants

Cylow - November 3, 2019, 12:01 am

I'll take that vouch copy, does it need to be a new account?
