Thread: [POST GET requests for http](#)

YouthInAsia - November 3, 2019, 4:28 am

I saw a few Wininet wrappers that were terribly written and filled with memory leaks. I had my own which I used for a long time so I decided to release the lib so others could use it in their project.

[GitHub - yousopunny/Nagoy: Simple http client wrapper for Wininet Releases yousopunny/Nagoy GitHub](#)

You put only the header file??

HFDone - November 3, 2019, 5:45 am

the second link contains the lib & header

YouthInAsia - November 3, 2019, 6:38 am

Lib is in the second link as HFDone stated.

0xDEAD10CC - November 3, 2019, 10:45 am

Post this file :)

Code C:\Users\Jade\Http\Http\Nagoy.cpp

why not post it to github? isn't that the fucking point of github?

waste of time making this garbage thread if you are just going to make a shitty release like this

I low-key agree mate what's the point of open sourcing sth when you are doing partial releases ?
Just my 2 cents ofc
