It seems like you have to invest a fuck ton of money to start earning little amounts and barely getting a profit i still dont understand this.

Not really you csn start without investment but it will tske longer. But you can also inest as low as 1\$ and keep building it up from there.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,  
Stanley

Hey, this is legit but this is a revenue-sharing website where they want you to invest in return for money back, all of your profit is from new members and when the website doesn't get enough new members to make enough money for the higher up levels the service will stop withdraws until it gains more money, and if that never happens it will most likely shutdown.

If you invest but no one invests after you, you are not going to get any money in return.

Might be true / might be not. They are increasing premium so they will always gaun money. And they are getting payed from there advertisers that are only using there service to advertise. Lets just all hope for the best. I have my ROI back a few weeks ago already and still happy earning.
