Can i have your discord or telegram? I dont really use hackforums ;/

**Mr. Pennywise** - November 4, 2019, 7:16 pm

Sales have to be done on-site. You can PM me for my discord though.

I'd like to get one of the vouch copies if it's still available. Thanks

**James Burnham** - November 4, 2019, 8:53 pm

Hey, could I have a vouchcopy? Thank you!

**Mr. Pennywise** - November 4, 2019, 8:59 pm

Tier 2 vouch copies went out to Honey Singh, Mr. Burnham and mackmall.

**mackmall** - November 4, 2019, 11:24 pm

I got one of the vouch copies. Very easy to install and use. Works just as described. There's also a ton of content in the list of packs he gives. Support was very good with quick response times. Mentioned that he's working on some other features that will make this app even better. Definitely worth the prices he's charging.

Big vouch from me.

I started a contract, it is required for reviews to be considered valid.

Can I host the panel myself? I'd like to get the \$15 one.

**Mr. Pennywise** - November 5, 2019, 12:30 pm

(Nov 5, 2019 02:17 AM)Lotus Wrote: [\[CITE\]](#) Can I host the panel myself? I'd like to get the \$15 one. To host it yourself all you need is a Snap Kit account.

I can walk you through the setup on the Snap Kit end and I can compile the app for you and provide the source files if you want to make any changes to it.

considered valid.

Marked the contract as complete.

**James Burnham** - *November 5, 2019, 6:33 pm*

I got a review copy yesterday. Mr. Pennywise asked me the snapchat username I would like to use the app with and then sent me a compiled version of the apk which I installed. I first scanned it on virustotal just to make sure, the file was 100% clear. So I installed it and tested it. The app works as expected, you can send gallery photos and videos as live. GUI is also nice and user-friendly. Seems like a good service to me. I may get a panel soon.

Thanks for the review copy.
