Thread: [2022 Time Capsule](#)

Shockley - November 4, 2019, 10:15 pm

Saturday/Tonight did this in 2015. He hasn't posted one recently and isn't very active anymore so I'll post one and wanted to change it up a bit. Cooligan did something similar too I think.

Will PM you in 2022 if we all make it to the other side.

How you're feeling now: Life's alright. Hooked up with a girl and caught feelings. Don't think she wants to take things further. This is currently making me sad but I'm sure you'll be long over her by then hopefully

Advice for your future self: Don't take things too seriously but also try to give a shit about things
Imao

Goals you hope to have achieved: Graduating college, have a good foundation for friends, maybe have a gf but probably not, have good credit and ready to jump into real estate goals. Godspeed

How you're feeling now: I'm feeling great. Life's good at the moment with lots of dreams and ideas in mind. Thinking about selling my car and getting a stronger one.

Advice for your future self: Do what you want, be yourself. It always worked out for you.

Goals you hope to have achieved: Hopefully you achieved all your goals. Set new ones. Higher.

Lindros - November 4, 2019, 11:29 pm

How you're feeling now: I'm feeling good, a bit tired cause it is late and a bit shitty cause I lost 2k gambling. However that story of the kid losing -\$50k of RobinHood's margin sufficiently cracked me up and satisfied me, funniest thing I have heard in 2019 that "GUUUHH" he made when his -50k - % losses updated instantly when the market opened.

Advice for your future self: Don't forget to enjoy everything that I have been working for. I have been working my ass off for YOU! Future self, I don't want you to fuck it off.

Goals you hope to have achieved: I hope to have graduated from school with a software engineering bachelor's degree or at least super close to it with the end in sight. I'm like 40% the way, I also should have 2 associates degrees by then. Hopefully if all goes well I will have myself a nice salary somewhere.

How you're feeling now: I am feeling quite alright. My relationship with girlfriend since 3 years back is kinda fukced, hoping it'll get better soon. I am currently part-time employed for the first time in the field of IT and I am loving it, hoping for a proper full-time employment after school. School is complete around June 2020. I also want a lot of money, I hope I will get better at saving. I also wanna smoke weed every day so I am hoping I find a job where I can do that. At my current job I cannot.

Advice for your future self: Die the way you lived.

Goals you hope to have achieved: Full-time employment, happy alone or happy in a relationship, nothing else. THC-levels in my blood which would make even Edward Cullen high af.

Looking forward to 2022.

Bluffer - November 5, 2019, 10:27 am

If I make it to 2022 on here that would be 10 years . Will have to contemplate my answers to this one. I do believe I participated in the last time capsule.

Time Capsule Survey

How you're feeling now: I recently hit rock bottom through the combination of sessional depression and substance abuse which lead me to mess up the entire semester, wasting most of my savings and shit up my short term memory capabilities lol. But right now I feel somewhat ambitious to make the best of the next semester and am optimistic about stuff so things are moving forward, informed school of the situation and we're looking at my best options right now so I'm not alone in this. Waiting for good times to come back soon

Advice for your future self: Be honest to yourself and others, request help earlier lol you dumbass

Goals you hope to have achieved: Picking up the broken pieces, maybe finally have a part time job, finding a better balance between sobriety and recreational drug use and finally doing well at uni again. [/b]

How you're feeling now: I'm feeling great actually, I've been working on keeping my mood at its peak lately.

Advice for your future self: Don't lose sight of your vision and no matter how much you achieve, never stop learning.

Goals you hope to have achieved: One of the things that I aim to achieve is to successfully bring my businesses to a steady profit rate of \$100,000+ USD.
