ProToolz - November 5, 2019, 5:03 am

SSH Bruter 2019

Made By ProToolz

Code - MultiThread

- MultiPort
- Threading Per Host
- Hosts per Attack
- HoneyPot Identifier
- OS Detection
- Automatically generated password from Users/Hosts file
- Automatically detect if host is SSH if not will skip
- Automatically detect if host is rejecting SSH Attacks

* Works with ranges

* Works with pre-scanned IP's and Domain List

-BE AWARE OF RIPPERS USING MY NICKNAME

sundesign - November 5, 2019, 7:24 am

Nice tool, see video i like tool.

Can you send me download link tool :D

k1ng0fn0th1ng - November 7, 2019, 12:59 pm

Looks good. Please, specify a price.

henryryy - November 8, 2019, 1:45 am

Still Works? Is that possible to target specific zipcode SSHs? what the price?

ProToolz - November 11, 2019, 3:05 am

You can target ip address or Ip Ranges.

You can contact me for 7day trial.

The price is 70\$ for lifetime license (LIFETIME UPDATES INCLUDED)

d452497 - November 12, 2019, 3:58 am

how is this better than Kali patator or hydra?

ProToolz - November 12, 2019, 7:36 am

Contact me on discord or pm on here. Discord :@Saucy#0001

ReduxJS - November 12, 2019, 2:26 pm

Looks very similar to a guy that sold a SSH bruter back in the day with the same features. Believe his name was csclus.

k1ng0fn0th1ng - November 14, 2019, 1:21 pm

Quote: - Automatically generated password from Users/Hosts file
which "Users/Hosts file" do you mean?

it's not quite clear for me how it generates passwords or where it gets them.

XMRFISHY - November 16, 2019, 4:48 am

Could you please send me a 7 day trail on this?

Might buy your package afterwards!

ProToolz - November 29, 2019, 3:57 am

Contact me for the trial and test urself.

angelside - March 19, 2020, 1:33 am

is working on linux? or is just for windows?

ravil - July 14, 2020, 12:31 am

I want to buy. Please can you pm me?

Young Sosa - July 14, 2020, 1:39 am

let me know if you can sort out me with a vouch copy so I'll leave a legit review about your product bro
